

Petition: Foxfield one-way system

Received 21 September 2010

To support action to enforce the one way system of the road named as FOXFIELD, in the area known as Shephall, in the town known as Stevenage.

We the undersigned request either further signage, more policing and/or a re-design of the road layout or a combination of all, to ensure the one way system is enforced and observed by drivers, which it is not currently with many examples of illegal use being acted out daily causing danger and distress to local residents and visitors alike.

Number of signatures: 52

The date it was received: 21st September 2010

The date we will respond by: 5th October 2010

Response to Petition (5 October 2010)

This petition was forwarded onto Peter Bandy, Strategic Director (Environment) for consultation with John Gardner, Executive Member with responsibility for Environment and Regeneration.

Whilst being sympathetic to the problems identified in the petition the requests contained therein are issues over which Stevenage Borough Council has no direct control. Any improvement to signage or alteration to the road layout would be the responsibility of Hertfordshire Highways and any enforcement of the one way system restrictions would be the responsibility of the Hertfordshire Constabulary.

The petition was forwarded to Hertfordshire County Council and Hertfordshire Constabulary for them to respond to the petitioners.
