

2019/20  
Financial Report including  
Statement of Accounts  
and Group Accounts

The 2019/20 Pre Audit Statement of Accounts was certified as presenting a true and fair view of the financial position of Stevenage Borough Council by the Chief Financial Officer on 31 July 2020.

This document is part of the Council's policy of providing full information about the Council's affairs. In addition, interested members of the public have a statutory right to inspect the accounts before the Appointed Auditor completes the annual audit. The availability of the accounts for inspection is advertised on the Council's web site.

## Foreword by Chief Executive

Welcome to Stevenage Borough Council's Statement of Accounts for 2019/20. As a co-operative Council we work alongside residents and partners to improve the lives of all those people that live and work in the town. To enable this, it's important that we maintain a high degree of openness around our spending and our decision making. The timely publication of our accounts is a key part of our commitment to this transparency.

Stevenage Borough Council provides circa 120 different services, most of which we provide ourselves, which includes our Council housing. However the Council's leisure facilities are currently under contract to Stevenage Leisure Services and we do share some services with other Councils which are:

- Shared Revenues and Benefits service (hosted by East Hertfordshire District Council (EHDC))
- Shared ICT service with EHDC hosted by Stevenage Borough Council.
- Shared Internal Audit Service (SIAS) and Shared Anti-Fraud Service (SAFS) with other Hertfordshire Councils hosted by Hertfordshire County Council
- Shared CCTV service (partnership and company) with EHDC, NHDC and Hertsmere Borough Council, hosted by Stevenage Borough Council.
- Shared Legal service hosted by Hertfordshire County Council.
- Shareholder in Building Control company with seven other Hertfordshire Councils
- Shared Disabled Facilities service (Hertfordshire Home Improvement Agency) hosted by Hertfordshire County Council

The Council directly employs circa 620 employees across our many services and how we fund those services is shown below.

## Foreword by Chief Executive

### Financial Challenges

Local government has faced significant funding cuts during the period of national austerity, which has seen successive governments reduce financial support to all parts of the public sector, with lower tier authorities such as Stevenage Borough Council receiving a significant proportion of that reduction. The impact on Stevenage has been our General Fund services will have seen £5.3Million of government grant removed between 2011/12-2019/20. But we also have had to fund an estimated £5.1Million of inflation increases and pressures in that period in addition to the grant reductions, without the ability to fund the widening gap from Council tax. This is because increases have been limited by legislation for District Councils at below 2% up to 2017/18 and thereafter limited to increase below 3% or £5 on a Band D property, without triggering a local referendum vote.

Our funding and income to provide our services has also been impacted by changes in government policy and no more so than government legislation on council house rents. The government's Welfare Reform and Work Act made changes to the rent we can charge for our council homes which has resulted an estimated reduction in income of £225Million over 30 year period. Rental income is used fund the management of our council homes, fund improvements and to build new homes.

## Foreword by Chief Executive

### *The Covid-19 pandemic*

The Covid-19 pandemic has had a considerable impact on the Council. The Government's lockdown announced on 20 March 2020, has meant that many businesses in Stevenage have had to close, significantly impacting on the local economy, which in turn impacts on the Council's income. Furthermore the Council has had to put significant resources into ensuring that rough sleepers are safe during this period and that the most vulnerable in our community are cared for. This comes with additional cost pressures.

These additional costs have not had a dramatic impact on the 2019/20 outturn as the pandemic only started to make a notable impact on the public's and businesses' behaviour in the last two weeks of March. However, the true scale of its impact on the Council's finances will be felt during 2020/21. The Council is expecting substantial losses across many of its largest streams of income. These include parking, trade waste and commercial property rents. As with any recession, investment income is anticipated to reduce which create further pressures on the Council's finances.

It is difficult to quantify the impact of Covid-19 at this stage with any certainty, but the financial pressure on the Council will be substantial, even after the Government's emergency Covid-19 funding for local authorities is taken into account. The Council has put precautionary measures in place to allow the Council to deliver its much needed services in the recovery phase and have sufficient balances, should further government funding fall short of the losses sustained.

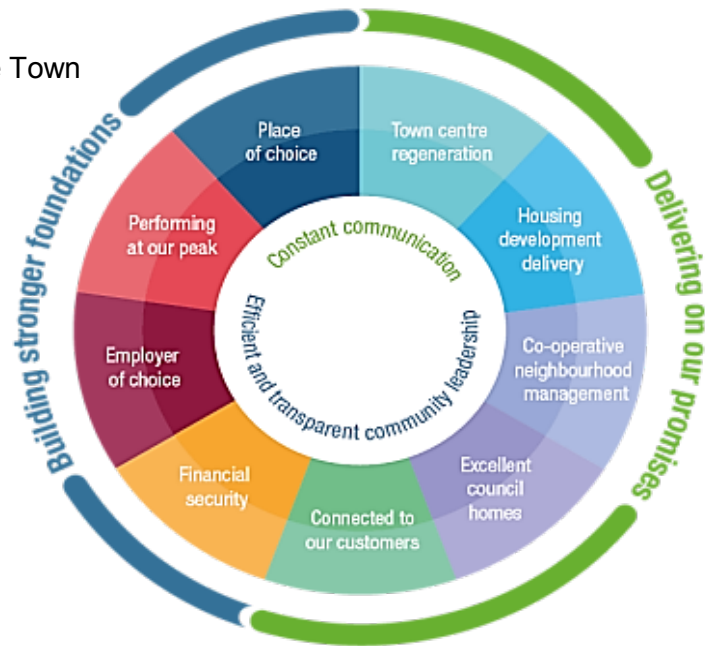

## Foreword by Chief Executive

### ***Future Town Future Council Programme & Covid-19 Recovery Plans***

We continue to face tough economic choices but we are all working hard in Stevenage to continue to deliver effective services despite the financial challenges we face. We all have fewer resources and must find creative ways to ensure that front line service quality for those who need us is not compromised.

The impact of grant reductions, legislation changes and the economic context has meant that we have needed a plan to fund our services and at the same time ensure that our scarce funding resources are directed to our top priorities.

Members approved the current Future Town Future Council Corporate Plan in December 2016. It reflects the Council's continuing focus on co-operative working and outlines the key outcomes and priorities for the town over the period 2016-2021 through the flagship Future Town Future Council (FTFC) transformation programme, shown to the right.

*Artist impression of Stevenage town centre*

## Foreword by Chief Executive

When we asked our residents<sup>1</sup>, they said their top priorities were regenerating the town centre and affordable housing, and these match the Council's top priorities

FTFC is delivering key improvements that our residents told us they want to see. Included in this five year programme are plans to regenerate the town centre, provide housing that works for all, make services more accessible, and invest in our town's neighbourhoods. From 2020/21 we will be launching a "Place of Choice" strand to our programme which will incorporate some of our place-based strategies and key work we carry out with our partners. We will ensure our cooperative approach helps us address the economic and social recovery challenges in the year ahead. This will be coupled with our commitment to addressing both the Council and the town's contribution to climate change through sustainable local growth via partnership and resident engagement across the town.

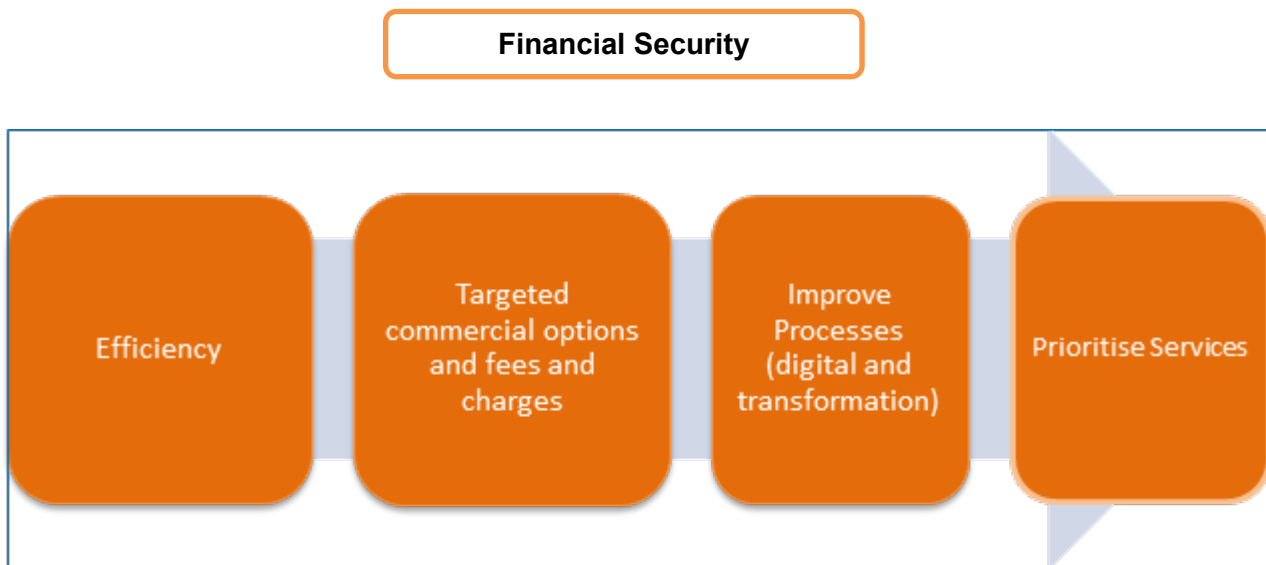

In parallel to this, the Council's focus has also turned to how it will aid recovery of the town and the Council in the context of the Covid-19 crisis. The aim of our emerging Town and Council Recovery Plans is to provide a formal and integrated structure for recovery following the Covid-19 pandemic. The backbone of the Town Recovery Plans is the Council's FTFC programme which is already being taken forward in partnership with other local organisations. Some of the actions that the Council will take in conjunction with its strategic partners will be short term to support social distancing. Others such as regenerating the town centre and building new Council homes, are medium to longer term programmes. Together these actions will play a significant role in the town's recovery.

## Foreword by Chief Executive

### **Financial Security**

But how we do we deliver all this with the financial challenges we face? The Council's Financial Strategies (MTFS), highlighted the need for on-going savings to fund inflation and service pressures. We aim to ensure we can deliver our priorities even though our resources are reducing through our 'Financial Security' work stream. The Council's priority 'Financial Security' helps us to deliver this through, efficiencies, procurement, smarter ways of working, income options and new and innovative transformation of our services, prioritising where we spend our money before reductions in services. This will help us maintain our priority services while still meeting our FTFC ambitions.

The four strands of the financial security priority are set out in the Council's Medium Term, Financial Strategy (MTFS) and is the enabler to delivering our MTFS objectives which includes:

*'To remove the General Fund's reliance on RSG by 2019/20 when the funding is removed and achieve an on-going balanced budget by 2022/23 by ensuring inflationary pressures are matched by increases in fees and income or reductions in expenditure'*

The delivery of FTFC priorities against a backdrop of funding cuts will necessitate that growth should only be to approved which meet the outcomes of the FTFC priorities. The Council will consider the timeline of this MTFS principle in light of Covid-19, projected funding losses to the Executive in the September 2020 update.

In determining how much we need to find through 'Financial Security', the Council's MTFS takes a five year view of future inflation, pressures, spend and income based on forecasts using government and independent data. Since 2010/11 this has identified a gap between income and expenditure, requiring 'Financial Security' targets to be set and implemented.

## Foreword by Chief Executive

But we do have a track record in achieving savings and during the period 2010/11-2019/20 Members have approved a total £10.02Million net cost reductions for General Fund services.

For the 2019/20 financial year, Members approved total General Fund Financial Security options of £798,552 and an additional £121,706 of prior year savings. Members also approved options totalling £354,630 for Housing Revenue Account (HRA), giving an overall total of £1,274,888 for 2019/20.

## Foreword by Chief Executive

Looking to the future, the total 'Financial Security' target for both the General Fund and HRA for 2021/22-2023/24 is estimated to be £3.13Million, (including fees and charges increases), our plans have identified options totalling £1.77Million, leaving £1.36Million to be delivered as part of the Financial Security priority, (£1.14Million General Fund, £220K, HRA) as at February 2020. This target may be changed in light of Covid pressures and will be reported to Executive in September.

In addition to the Financial Security options identified, Members have also approved the first major 'targeted commercialisation' option in 2017. This was £15Million investment in commercial property predominately in Stevenage to promote economic investment for the town and give an estimated net £200,000 contribution to the General Fund. To date one property has been acquired which is estimated to give a £41,773 contribution to the General Fund and other opportunities are currently being explored. The projection for 2020/21 is to achieve a £200,000 total contribution for the General Fund subject to changes to the PWLB regulations currently being considered by government.

The Council's March 2019 Executive also approved the business plan to set up of a Wholly Owned housing company (WOC) to provide a supply of market rent properties. The creation of the WOC allows Stevenage Borough Council to influence the private rented market in order to provide an alternative to what the market is currently offering in terms of quality and assurance of tenure. The business plan anticipates that the WOC will be able to make a contribution to the General Fund after the third year of trading, this is currently being reviewed.

### ***FTFC Delivery***

Over the past year, we have seen substantial progress across our corporate 'Future Town Future Council' programme and despite the difficulties the current coronavirus outbreak has placed on residents, business and ourselves, the council is determined to continue its ambitious programme of work to ensure both town and council are revitalised for the 21<sup>st</sup> century.

The much needed multi-million pound regeneration of Stevenage town centre has begun, and represents one of the biggest development opportunities in the East of England. The Council continues to work with its construction and delivery partners to deliver a range of regeneration schemes.

During 2019/20, development and construction company, Mace, submitted the planning application for a key phase of the town centre regeneration, called SG1. This ambitious scheme will bring £350million of private investment into our town centre and will see the area covering our offices here at Daneshill House, the Plaza, bus station and some of the adjacent car parks redeveloped with new shops, bars and restaurants, homes, new public spaces, and a central public sector hub accommodating our offices, a library, exhibition space, and health services. We anticipate that, following the planning process, construction work will start in this financial year, taking several years to complete.

## Foreword by Chief Executive

Our other development partner, Reef, is progressing well on a further town centre scheme, that will see the redevelopment of a significant part of the Town's main shopping thoroughfare, Queensway North. The £50million scheme aims to ensure the town centre offer remains vibrant and will introduce a range of new retail, flexible working, conference facilities and bar and restaurant space into the area, with the first phase due to complete in 2020/21.

Improvements to the public realm in the Town Square will also complete in 2020/21 and construction of the new bus interchange will commence.

Stevenage is well positioned to attract further infrastructure investment over and above the Growth Deal funding already secured. The Council has continued to contribute to the development of a Hertfordshire Growth Prospectus and a countywide Economic Recovery Strategy that will potentially help unlock additional Government resources to stimulate growth across the county and within Stevenage.

Work is continuing to progress through the recently created Stevenage Development Board on the development of a Town Investment Plan for Stevenage – as part of the Government's Towns Fund Programme. Through this programme the Council, working alongside local partners, has an opportunity to secure up to £25million to further support growth in the town.

*Southgate Artists impression after regeneration*

## Foreword by Chief Executive

Providing decent, social and affordable homes appropriate to the needs of our residents is another one of our key priorities and is being achieved through the delivery of the Council's own new build programme.

A total of 65 social and affordable homes were delivered in 2019/20, including schemes at Blackwell Close and Burwell Court, bringing the total to 238 homes since the programme began. The contractor for the flagship independent living scheme at Kenilworth Close was also appointed during the year.

During 2020/21, the Council will progress the development of a further 240 new affordable homes, including sites at Shephall Way, Kenilworth Close, North Road and Symonds Green, and will seek planning permission for an additional 300 homes. We will also finalise the establishment of a new Wholly Owned Housing Company to further deliver housing growth within the town.

We are a Co-operative Council and as such we take decisions with our residents and another of our top priorities is the Co-operative Neighbourhood programme. This includes neighbourhood garages, play refurbishments, improvements to public realm and landscaping as well as employing our four neighbourhood wardens to work with residents in the town to improve our neighbourhoods. In 2019/20 we allocated £450,000 from New Homes Bonus funding to help fund this programme. This funding is in addition to the capital funding we have already approved.

## Foreword by Chief Executive

The Council will implement a new Area Based Working model during 2020/21; including the establishment of six Cooperative Neighbourhood areas. Neighbourhood teams will form the basis of the Council's strategic approach to delivering localised, responsive, coordinated and collaborative services; working with partners; and engaging with the different communities of Stevenage.

As part of the Council's community wealth building approach, work will continue with other anchor institutions and businesses in the town to share best practice and promote local employment and spend.

### ***Risk and Performance***

The FTFC programme is an ambitious programme for Stevenage and this brings a level of risk for the Council. The Council maintains a Strategic Risk register which is reported to the Senior Leadership Team (SLT), Corporate Risk Group and our Audit Committee on a quarterly basis. This register includes all the top perceived risks for the Council and includes actions to mitigate risk. In addition any decisions taken by our Members are considered taking into account financial, legal and identified risks.

We ensure that we deliver the services and priorities our Members have approved by reporting quarterly using some key measures and programme updates to see how we are doing. Some of the measures relate to the FTFC programme and the remainder to key performance indicators that check how well we are providing our services and meeting our targets. These are reviewed by the SLT and we look at any mitigation we can implement if our targets are not being met. The performance measures are then approved by our Members. Although not all our measures are on target and we have put plans in place to achieve them and we recognise we can always improve.

### ***Business Transformation***

Our focus, as always, is on delivering the most efficient services which offer the best value for money for Council Tax and rent payers across the borough. However, we need to acknowledge that we cannot make the level of savings we require without making some difficult decisions about how we spend our money and the services we continue to provide our 'Future Town Future Council' priorities.

Our Business Unit Reviews which were started in 2017/18 aim to enhance our workforce capacity and skills to meet the increasing and changing demand for services over the next five years.

In response to Covid-19 the Council has changed how it operates and how it delivers services to residents. Whilst some of this change has been hard, the organisation now has the capability to work and deliver differently – to become an even more modern and flexible organisation with the potential to change its culture and further improve staff wellbeing.

## Foreword by Chief Executive

In 2020/21 the Council will develop a new Workforce strategy and supporting work programme to ensure that our workforce and workplace are developed and engaged to deliver our services now and in the future. The strategy will focus on ways of working, workforce communication, workforce inclusion and diversity and workforce development.

Building on the changes already made the Council will look to refocus and accelerate its transformation programme in order to improve user experiences and create service efficiencies. In doing so, the Council will look to further exploit new and existing technology to deliver more accessible services and involve service users as it does so.

### **Statement of Accounts**

The Accounts of Stevenage Borough Council for the year ended 31 March 2020 are set out on the following pages. The various statements include where relevant, comparative figures relating to the previous financial year and supporting notes. These Accounts are prepared in accordance with the 2018/19 Code of Practice on Local Authority Accounting.

We have attempted to prepare these accounts in a style to enable readers to understand and interpret the various financial statements. I aim to give electors, local residents, Council Members, partners, and other interested parties confidence that public money which has been received and spent, has been properly accounted for and that the financial standing of the Council is secure.

This concludes my first year as Chief Executive of Stevenage Borough Council, a role I am both proud and privileged to hold. I am grateful for the support I have received from officer colleagues and our Elected Members, in particular, the Leader of the Council Cllr Sharon Taylor OBE. Without a doubt the response to the COVID Pandemic will continue to dominate for some time to come as we strive, working cooperatively with our partners, to do all we can to support local people and businesses. I hope though that the activities already underway along with those now planned as set out in this foreword serve to demonstrate that Stevenage Borough Council was already focusing upon the right priorities as highlighted by those who live and work in the town.

Matt Partridge  
Chief Executive

## About Stevenage Borough Council

### Background

Stevenage was designated Britain's first new town in 1946.

The town was planned and developed by the Government-appointed Development Corporation that was responsible for a series of master plans detailing the way the town would grow. Stevenage Urban District Council became the Borough Council under local government reorganisation in 1974 and by 1980 most of the Development Corporation's functions had been transferred to the Borough Council.

## About Stevenage Borough Council

### General information

#### Geography

Stevenage is strategically located within Hertfordshire 30 miles north of London.

With a major station on the East Coast Main Line, Stevenage offers superb connectivity with **19 minute journey times** to Kings Cross and less than 40 minutes to Cambridge. Thameslink services giving **direct connections** to **Farringdon, London Bridge** and **Gatwick** have also expanded into Stevenage, with links all the way through to Brighton

Stevenage is also situated on the A1 (M) with good access to Cambridge, Peterborough, Northampton and Milton Keynes in less than one hour by road.

In addition, two international airports are within easy reach of Stevenage: London Luton (14 miles) and London Stansted (29 miles)

#### Business

Many of the world's most innovative companies as well as numerous exciting start-up businesses have chosen Stevenage to base their operations. Whether it is creating a new drug, driving on Mars or building a successful technology business, **Stevenage is the place to do business**. Our business base has a rich history and diversity that spans a wide range of sectors including aerospace, information technology, pharmaceuticals, advanced engineering and media. A quarter of the world's satellites currently in orbit were made in Stevenage, and we are one of the leading locations for cell and gene therapy development. Our major employers include:

- GlaxoSmithKline
- Airbus Defence & Space
- MBDA
- Stevenage Bioscience Catalyst
- Stevenage Cell & Gene Catapult
- Fujitsu

#### Living

Stevenage offers a fantastic standard of living with a strong mix of urban and rural life. There is a great mix of housing in and around the town at reasonable prices. Schools and colleges provide an excellent education offer, with many exceptional schools situated throughout Hertfordshire. It has a **strong culture and leisure offer** within the town centre with major retailers present within the Borough. The Old Town provides a pleasant contrast with the High Street popular for cafes, pubs and independent retailers. There are over **300 acres of public park** within the Borough that provide a wide range of recreational activity that can be accessed via an extensive, safe cycle network.

## About Stevenage Borough Council

### General information

#### Opportunity

Stevenage is planning on delivering over 7,500 new homes over the coming 20 years with half of these to be delivered in the Town Centre. The Stevenage Central Framework sets out our ambitious regeneration programme for the town centre and with planning permission submitted by our development partner Mace for the first phase, called SG1, construction is another step closer. SG1 will see over 1,800 new homes, restaurant, commercial spaces, public spaces and a new community hub delivered.

The Council has also entered into a partnership to redevelop part of Queensway in the town centre. The £50million redevelopment will include mixed retail use, housing and leisure facilities, helping to regenerate this area of the town centre

Queensway: artist's impression

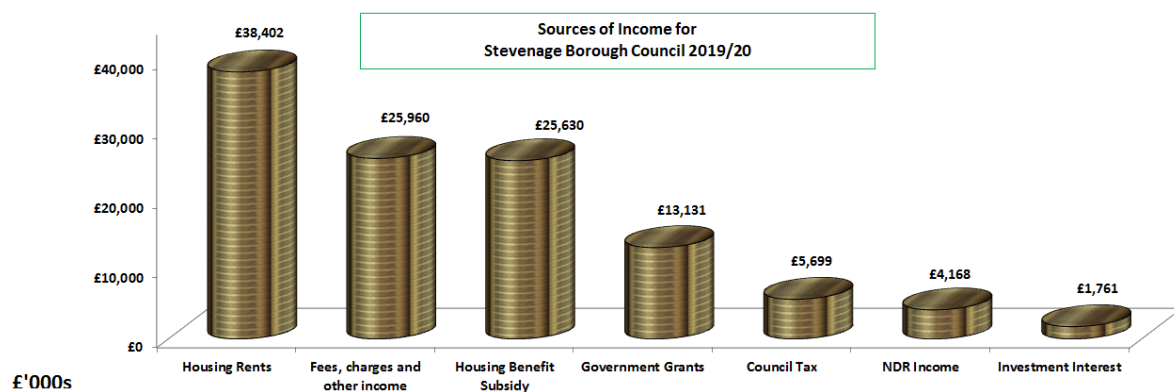

## About Stevenage Borough Council

### Where our money comes from and how we spend it.

The Council provides a wide range of services to the residents of Stevenage including refuse and recycling collections, leisure facilities including children's play schemes and maintenance of the

public open spaces in the district. In addition the Council helps to keep the residents safe with responsibility for environmental health issues and ensuring new buildings comply with legislation. The Council also has a responsibility to help homeless families and to administer housing benefit claims. To pay for these services the Council receives money from a number of sources. The following charts show where we receive our income and where we spend it for our residents and tenants.

## Narrative Statement

### Revenue Budget and Outturn

The original General Fund net budget of £8,802,520 was agreed at Full Council on 27 February 2019. Subsequently, Members have approved various budget amendments to take into account service pressures and budget options arising in year resulting in a revised budget of £9,570,680 approved on 11 March 2020 (third quarter budget monitoring report). The final out-turn position for the year against the revised budget is set out below:

	Original Budget 2019/20	Working Budget 2019/20	Actual 2019/20	Variance to Working Budget
	£'000	£'000	£'000	£'000
<b>Directorate:</b>				
Community Services	4,297	4,462	4,433	(29)
Housing Services	1,991	2,011	2,724	713
Environmental Services	6,798	7,329	6,143	(1,186)
Local Community Budgets	101	101	92	(9)
Resources*	(4,353)	(5,031)	(6,990)	(1,959)
Resources - Support	(31)	698	563	(135)
<b>Total Net General Fund Expenditure</b>	<b>8,803</b>	<b>9,571</b>	<b>6,965</b>	<b>(2,606)</b>
<b>Income:</b>				
Council Tax	(5,755)	(5,755)	(5,755)	0
Transfers to/from collection fund	(437)	(437)	(437)	0
Revenue Support Grant (RSG)	0	0	0	0
Retained business rates	(2,563)	(2,563)	(2,909)	(347)
<b>Total Income from taxation and RSG</b>	<b>(8,754)</b>	<b>(8,754)</b>	<b>(9,101)</b>	<b>(347)</b>
<b>Net underspend/transfer to balances</b>	<b>48</b>	<b>817</b>	<b>(2,136)</b>	<b>(2,952)</b>
General Fund Balance Brought Forward	(4,096)	(4,794)	(4,794)	
<b>Balance Carried forward</b>	<b>(4,048)</b>	<b>(3,977)</b>	<b>(6,930)</b>	

*\*The majority of Resources - Support costs are recharged out to the service area in accordance with CIPFA Reporting Code of Practice*

The 2019/20 actual net spend on the General Fund was £2,605,535 lower than the working budget. This includes actions approved in the Medium Term Finance Strategy recovery plan at the June Executive to improve the resilience of General Fund balances as a result of the impact of Covid 19 on the Council. The large variance in Resources is mainly due to £1,218,000 of Revenue Contribution to Capital that will be used to offset some of the Covid19 losses that will impact 2020/21 and as approved by Members in the June MTFS update. Included within this underspend is £794,510 relating to projects which have slipped into 2020/21 and for which carry forward of budget has been approved by Executive (8 July 2020).

## Narrative Statement

### Budget – Housing Revenue Account (HRA)

The original HRA budget of £9,076,320 (deficit) was agreed at Council on 30 January 2019. Subsequently, Members have approved various budget amendments to take into account service pressures and budget options arising in the year resulting in a revised budget of £2,432,450 surplus approved on 11 March 2020 (third quarter budget monitoring report). The final out-turn position for the year against the revised budget is set out below:

	Original Budget 2019/20 £'000	Working Budget 2019/20 £'000	Actual 2019/20 £'000	Variance to Working Budget £'000
<b>Expenditure:</b>				
Supervision & Management	9,383	9,444	9,129	(315)
Repairs & Maintenance	6,226	6,155	6,136	(19)
Other expenditure	5,629	5,800	5,605	(195)
<b>Total Expenditure</b>	<b>21,239</b>	<b>21,398</b>	<b>20,870</b>	<b>(529)</b>
<b>Income:</b>				
Dwelling Rents	(39,254)	(39,022)	(39,012)	11
Other income	(5,579)	(5,408)	(5,852)	(444)
<b>Total Income</b>	<b>(44,834)</b>	<b>(44,430)</b>	<b>(44,863)</b>	<b>(433)</b>
<b>Other charges to the HRA</b>				
Depreciation	12,156	11,484	11,484	(0)
Interest	6,568	6,457	6,469	12
Other	13,947	7,523	7,523	(0)
<b>Total Other charges to the HRA</b>	<b>32,671</b>	<b>25,465</b>	<b>25,477</b>	<b>12</b>
<b>(Surplus) / Deficit for the year</b>	<b>9,076</b>	<b>2,432</b>	<b>1,483</b>	<b>(950)</b>
Balance brought forward	(20,054)	(21,302)	(21,302)	0
<b>Balance Carried forward</b>	<b>(10,977)</b>	<b>(18,870)</b>	<b>(19,819)</b>	<b>(950)</b>

The 2019/20 actual HRA net deficit was £949,802 lower than the working budgeted deficit. Included within this underspend is £390,440 relating to projects which have slipped into 2020/21 and for which carry forward of budget has been approved by Executive (8 July 2020). Included within the actual costs is the release of a provision £440,000 this relates to claims relating to historic water commission charges that are now considered to be of low risk within the HRA accounts and is in accordance with statutory provisions and CIPFA guidance.

## Narrative Statement

### Budget – Housing Revenue Account (HRA)

In April 2012 the HRA became subject to the Self Financing regime. Under the scheme the costs associated with running, maintaining and replacing the Council's housing stock is financed from income generated from rents, sale receipts, and if necessary, capital borrowing which, at the time, was limited by a borrowing cap set by the government. This borrowing cap was lifted in 2018/19. At the time of the Self Financing settlement the HRA took loans totalling £196,911,000 (an amount determined by and payable to The Secretary of State). HRA reserves over and above minimum balances (£19,819,000 at 31 March 2020) are required to repay those loans taken out as part of the Self Financing agreement and balance the needs of the service. In addition Members have approved a reserve of £5.7Million to allow for interest rate fluctuations on borrowing.

2019/20 was a landmark year for the HRA with housing stock increasing and the number of new homes provided exceeding the number of houses lost through the right to buy scheme. During the financial year 2019/20, 42 council homes were sold under the Right to Buy scheme and 64 new homes were provided by the Council's Housing Development programme The Council's closing stock of council homes at 31 March 2020 was 7,990 (7,965 properties at 31 March 2019).

*15 New homes at Burwell Court*

## Narrative Statement

### Material Assets Acquired or Liabilities Incurred during 2019/20.

During 2019/20 the Council acquired sites in the town centre as part of the regeneration site assembly to deliver a new public realm and buildings at the heart of Stevenage.

### Economic Significant Provisions, Contingencies and Write offs

There were no significant movements in provisions or write offs in 2019/20.

### Council Reserves

The Council operates two main funds or accounts; a 'General Fund' for services such as refuse, grass cutting etc. and a 'Housing Revenue Account' which manages the Council's housing stock. Each fund has its own revenue reserves– General Fund revenue balances can not be used for HRA expenditure and vice versa. Capital reserves have been allocated to either General Fund or HRA while some capital reserves are fund specific, for example the Major Repairs Reserve can only be used for HRA capital expenditure. The capital receipts reserves and Capital grants unapplied reserve and statutory reserves for which they can only be used for specific purposes.

As at the 31 March 2020 the General Fund had total reserves of £19.31Million and the HRA had total reserves of £40.38Million (HRA reserves include £10.36million that can only be used on new social housing with significant restrictions and if not spent within three years must be returned to the Government). Although the balances may appear relatively high the Medium Term Financial Strategy (for the General Fund) and Business Plan (for the HRA) have identified the need to draw down a significant proportion of these balances in the medium term. HRA balances are required to fund future loan repayments due over the 30 years of the Business Plan. In addition these balances include specific reserves that can only be used for capital expenditure.

### General Fund Reserves

The Reserves which can be used for "one-off" funding of day to day General Fund services total £19,309,000, however of this the minimum level of balances have been identified at £2.9Million for known risks. It also includes £895,310 identified for carry forward spend from 2019/20 to 2021/21 and £3.1Million ring fenced to cover Covid 19 losses in 2020/21 and £4.4Million ringfenced for known projects. The General Fund also has reserves it can use to fund major works to assets such as buildings and equipment, which cannot be spent on running services. As at 31 March 2020 the General Fund had capital resources of £7,981,000.

## Narrative Statement

### General Fund Reserves (contd)

The General Fund Reserves are summarised below:

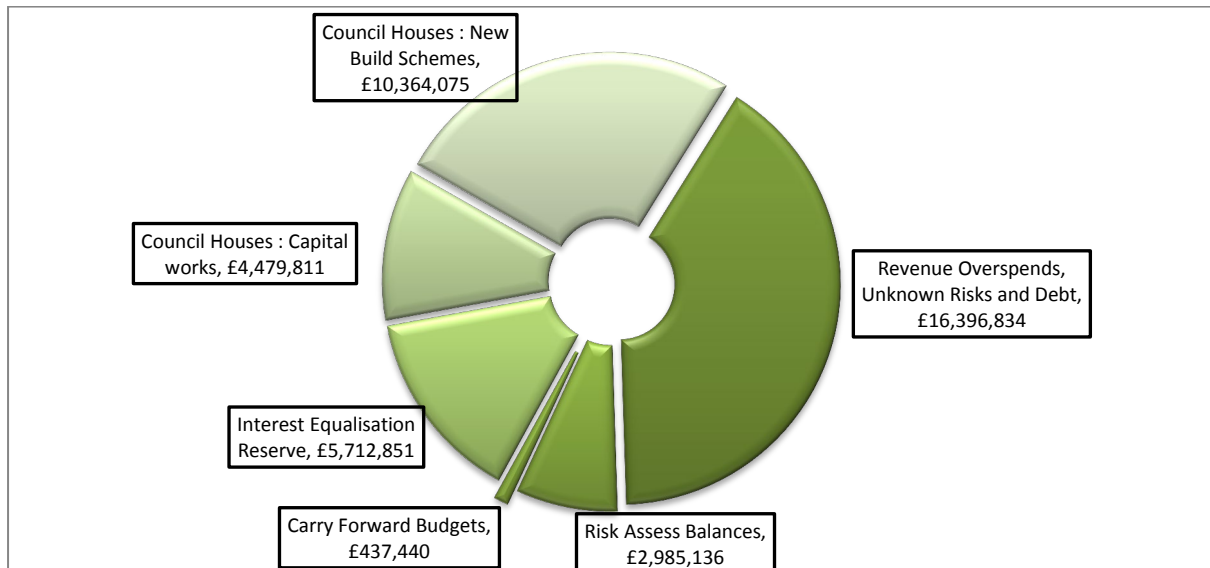

As part of the budget setting process the Council undertakes a risk assessment to determine the level of balances required in each year. The risk assessment identified General Fund balances of £2,920,935 are required for 2020/21, (at the 31 March 2019, £2,671,410). In setting a minimum balance it ensures that there are reserves available to meet unforeseen expenditure and/or income losses arising in the year and to meet any expenses arising before income is received. In June 2020 Members approved an updated Medium Term Financial Strategy to address Covid 19 pressures and an additional £3Million use of balances was identified to cover anticipated budget pressures in 2020/21 and the mitigation measures necessary to address the pandemic. The Council continues to managed its use of General Fund balances in the short term but may have to review the Council's Financial Security principle objective of an ongoing balanced budget by 2022/23 ensuring in year inflationary pressures are matched by increases in income or reductions in expenditure as a result of Covid 19 (September 2020 Executive).

Local Government finances are going through considerable change and challenge and the assessment of balances must not only deal with unplanned spend but also future Government funding changes, including the fair funding review and the localisation of Business Rates which places greater risk and reward on the Council in regard to NDR collection rates and yield. These changes to funding have been deferred beyond 2021/22 as a result of Covid 19 and the need for Councils to focus on meeting the public health challenges posed by the pandemic.

## Narrative Statement

### Housing Revenue Account Reserves

HRA reserves are ring fenced and cannot be used for General Fund expenditure. The Reserves which can be used to support Housing Revenue Account (HRA) total £40,379,000 and these are summarised below:

As with the General Fund a risk assessment is undertaken on the HRA to determine the level of balances required each year. The risk assessment identified HRA balances of £2,985,000 are required for 2020/21. In addition balances will be needed to repay the HRA loans (as at 31 March 2020, the HRA had loans of £209Million) of which most related to a one off payment to the Government as a result of the self-financing settlement on the 28 March 2012.

The HRA balances as at 31 March 2020 were £19,819,000 and higher than the risk assessment of balances for 2019/20, however the HRA is subject to significant financial risks including;

- Legislative changes have increased the levels of RTB sales over and may result in sales above those anticipated in the HRA Business Plan. Future policy changes are not known however, the revised business plan currently assumes 35 sales per year.
- Impact of universal credit on the collectability of rents and possible adverse effect on rent arrears.
- Increased prudential borrowing in the HRA increases the risk of adverse interest rate fluctuation throughout the life of the business plan.
- Impact of future changes in government policy on rent increases.

## Narrative Statement

### Housing Revenue Account Reserves (contd)

The HRA also has reserves it can use to fund capital works to Council houses. As with all capital cash balances this money cannot be spent on revenue services; of the £14,844,000 available for capital schemes £10,364,075 must be used for the provision of new housing (funding up to a maximum of 30% of the build costs, the remainder being funded by other HRA capital resources), or repaid to the Government if not spent within three years. These receipts are generated from right to buy of Council homes of which the government takes a proportion which was £864,620 in 2019/20.

### Borrowing and Capital

As at the 31 March 2020 the Council had external borrowing of £209.229 Million (£205.483 Million at 31 March 2019). The majority of this debt relates to the Housing Revenue Account (HRA) payment to the government as a result of the introduction of Self Financing for the HRA. The HRA business plan has a timetable for the repayment of this debt phased over the next 25 years.

In addition it has finance lease to purchase 37 year head lease for 85-100 Queensway and 24-26 The Forum from Aviva, (£11.765M at 31 March 2020, £11.788 at 31 March 2019)

In 2019/20 the Council spent £43.527 Million on capital projects, of which £19.500 Million was spent on our existing housing stock and other housing related assets, £10.886 Million on new HRA homes and a further £13.140 Million on General Fund assets.

The Council funded £8.038 Million of its capital programme from the sale of assets, (land and council house sales), which equates to 18%, (21% 2018/19) of the total funding. Grants and 3<sup>rd</sup> party payments made up £8.582 Million of funding (20%) in 2019/20. The biggest source of funding (41%) of the HRA capital programme in 2019/20 was the Major Repairs Reserve. This is funded from the depreciation charge made from the HRA to the Major Repairs reserve to finance future capital investment. The residual £8.876 Million was financed by borrowing, from new external borrowing and internal borrowing.

### Pension Liability

The Council participates in the Local Government Pension Scheme. The scheme is administered by Hertfordshire County Council, and the impact of the pension liability is shown on the face of the balance sheet. As at 31 March 2020 the pension liability decreased by £17,721,000 to £40,973,000 (£8,642,000 increase in 2018/19) following the triannual review undertaken in 2019/20.

## **Narrative Statement**

### **Significant changes in accounting policy in 2019/20**

There have been no significant changes in accounting policies in 2019/20. The reader should note that policies specific to a Note to the Core Statement are shown at the start of the note that they relate to (in a green text box).

### **Significant changes in estimation techniques in 2019/20**

There have been no significant changes to estimation techniques this year.

### **Other significant events during the financial year 2019/20**

In March 2020 the UK went onto a countrywide lockdown to combat the spread of Covid 19 pandemic. Members of the public were asked to stay at home, non- essential shops and offices were closed and the council saw a significant drop in income from carparks and tenants. At the same time the council was incurring additional costs in supporting the residents of Stevenage and providing accommodation for rough sleepers. Central Government grant has been provided towards these costs but as reported in the Covid 19 medium term financial strategy presented to Executive in June 2020 the additional costs to the Council in 2020/21 is estimated at £6Million, based on current forecast and impacts of Covid 19. Financial mitigation measures were approved by Members in June to address the immediate impact of the Covid pandemic.

During the pandemic work on the Councils regeneration schemes at SG1 and Queensway continued. In 2019/20 two further land assembly purchases were made to facilitate the SG1 scheme.

### **Further Information**

Further information about the accounts is available from: Strategic Director (Chief Financial Officer), Stevenage Borough Council, Daneshill House, Danestrete, Stevenage, SG1 1HN

# Statement of Responsibilities for the Statement of Accounts

## Stevenage Borough Council's Responsibilities

Stevenage Borough Council is required:

- To make arrangements for proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Strategic Director (Chief Financial Officer).
- To manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- To approve the Statement of Accounts

## The Strategic Director (Chief Financial Officer) Responsibilities

The Strategic Director (Finance and Estates) (Chief Financial Officer) is responsible for the preparation of the Council's Statement of Accounts which, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code), and is required to present a true and fair view of the financial position of the authority at the accounting date and its income and expenditure for the year ended 31 March 2019.

In preparation of this statement of accounts, the Strategic Director (Chief Financial Officer) has:

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the local authority Code.

The Strategic Director (Chief Financial Officer) has also:

- Kept proper accounting records which were up-to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

## Certificate of Chief Financial Officer

I certify that this Statement of Accounts has been prepared in accordance with Regulation 8 of the Accounts and Audit Regulations (England) 2015 and presents a true and fair view of the financial position of the Authority as at 31 March 2019 and its Comprehensive Income and Expenditure Statement for the year ended 31 March 2019.

**Clare Fletcher**  
Strategic Director (Chief Financial Officer) 31 July 2020

# Statement of Accounts 2019/20

## Expenditure and Funding Analysis

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from core resources government grants, rents, council tax and business rents by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how the expenditure is allocated for decision making purposes between the council's services. Income and expenditure is accounted for under generally accepted accounting practices and is presented more fully in the Comprehensive Income and Expenditure Statement.

## **Comprehensive Income & Expenditure Statement for the year ended 31 March 2020**

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation and rents to cover expenditure in accordance with regulations; this may differ from the accounting cost. The taxation position is shown previously in the Expenditure and Funding Analysis and in the Movement in Reserves Statement that follows.

All Council operations are continuing. The Council is a shareholder in Hertfordshire CCTV Partnership Ltd which started trading in 2015 and the Building Control Company that started trading in August 2016.

The Council holds a 99.9% share of a new Partnership – Queensway Properties (Stevenage) LLP for which Group Accounts have been included in the Statement of Accounts.

## Movement in Reserves Statement

This statement shows the movement in year of the different reserves held by the Council, analysed into usable reserves (i.e. those that can be applied to fund expenditure or reduce local taxation) and other unusable reserves. The Statement shows how the movements in year of the authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return the amounts chargeable to council tax (or rents) for the year. The net increase/decrease line shows the statutory General Fund Balance and Housing Revenue Account Balance movements in the year after these adjustments. (See also Expenditure and Funding Analysis)

## Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the authority (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories:

The first category of reserves are **usable reserves**, i.e. those reserves that the authority may use to provide services subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt) (see also Note 8 to the Accounts which give more information on earmarked reserves).

The second category is **unusable reserves** or those that the authority is not able to use to provide services. This category includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences in the Movement in Reserves Statement line “adjustment between accounting basis and funding under regulations”.

Additional notes to aid the reader regarding the Balance Sheet

Within the **Council dwellings** valuation of £631,791,000 there are a number of properties which are likely to be sold within the next 12 months under the Right to Buy Scheme. As at the balance sheet date these properties were not actively marketed and nor is there any certainty as to which properties will be sold. However based on the number of successful applications made last year it is estimated that 24 properties could be sold in 2020/21. This would equate to an estimated balance sheet valuation of £1,897,745,000.

## Cash Flow Statement for the year ended 31 March 2020

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The Statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator to the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of service provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital to the Council.

2018/19 £'000		Note	2019/20 £'000	£'000

## Notes to the Core Financial Statements

### 1. Cross Cutting Accounting Policies

Accounting policies are the specific principles, bases, conventions, rules and practices applied by the Council in preparing and presenting the financial statements. Where accounting policies are specific to an area of the accounts they are included with the relevant disclosure note in a green shaded box. Accounting policies which apply across the whole of the accounts are disclosed below:

**General Principles:** *The Statement of Accounts summarises the Council's transactions for the 2019/20 financial year and its position as at the year end of 31 March 2020. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015 which those regulations require to be prepared in accordance with proper accounting practices. The Statement of Accounts have been prepared in accordance with proper accounting practices and Code of Practice on Local Authority Accounting in the UK 2019/20 supported by International Financial Reporting Standards and statutory guidance issued under section 12 of the 2003 Act. The accounting convention adopted in the Statement of Accounts is historic cost, modified by the revaluation of certain categories of non-current assets and financial instruments.*

**Prior period adjustments** *may arise as a result of a **change in accounting policies** or to correct a **material error**. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.*

*Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of the transaction, other events and conditions on the Authority's financial position or financial performance.*

*Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.*

*Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.*

## Notes to the Core Financial Statement

### 1. Cross Cutting Accounting Policies (contd.)

**Accruals of Income and Expenditure (updated)** - Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Authority transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits of service potential associated with the transaction will flow to the Authority.
- Revenue from the provision of services is recognised when the Authority can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Authority.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption and the value is considered material, they are carried as inventories on the balance sheet.
- Expenses in relation to the services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but the cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Revenue relating to council tax and non-domestic rates (NDR) shall be measured at the full amount receivable (net of any impairment losses).
- Staff expenses are recognised in the year that they are paid.
- A de minimus limit of £1,000 has been established for all accruals (2019/20)

**Value Added Tax (VAT)** - Income and expenditure excludes any amounts that relate to VAT, except where the VAT element is not recoverable from HM Revenue and Customs.

## Notes to the Core Financial Statements

### 1. Cross Cutting Accounting Policies (contd.)

*The costs of **overheads and support services** are charged to those services that benefit from the supply or service provided. The total absorption costing principle is used with the basis for internal charging, wherever possible, on a unit basis appropriate for the service provided, e.g. office accommodation by floor area, Human Resources (HR) charges by number of employees etc. Other categories of internal charge are apportioned on an appropriate percentage basis based on staff time.*

***Borrowing Costs*** – It is not the Council's Policy to capitalise borrowing costs.

***Inventories*** (stock) are included in the Balance Sheet. Stocks are valued at the latest purchase price paid. The Council does not comply with IFRS which requires stocks to be shown at the lower of costs or current replacement cost, however, the effect of the different treatment is not significant. Work in progress on uncompleted jobs is valued at cost price.

### 2. Accounting Standards issued but have not yet been adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. At the balance sheet date the following new standards and amendments to existing standards have been published but not yet adopted:

- IFRS 16 Leases will require local authorities that are leases to recognise most of leases on the balance sheet as "right of use" assets with corresponding lease liabilities  
CIFPA/LASAAC have deferred implementation of IFRS16 for local government to 1 April 2021.
- IFRS 19 Employee benefits will require the re-measurement of net pension asset/liability following plan amendments, curtailments or settlements to be used to determine current service costs and net interest for the remainder of the year after the change to the plan  
The updating of these assumptions only applies to changes from 1<sup>st</sup> April 2020 and since this could result in positive, negative or nil movement on the pension liability it is not possible to predict the impact of this accounting change.

## Notes to the Core Financial Statements

### 3. Critical judgements in applying Accounting Policies

In applying the accounting policies, the authority has had to make certain judgements about complex transactions and/or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- There is a degree of uncertainty about the financial impacts if the Covid 19 Pandemic, In June 2020 Executive Members approved a Medium Term Financial Strategy to mitigate the immediate cash flow implications of the lost income and additional spending pressure brought on by the pandemic. The Council valuers have considered the impact of Covid19 on the Council assets .
- There is a degree of uncertainty about the future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities or materially reduce levels of service provision. The Council has identified budget options in its General Fund Medium Term Financial Strategy in anticipation of reduced central government grant funding levels in future years and a methodology to address this via the financial security work stream of the Future Town Future Council priorities.
- The Council considered that the partnership arrangements of the CCTV control room constitute a jointly controlled operation and as such each authority accounts for its share of the liabilities and assets of the partnership. (See also Note 23 CCTV Partnership and Hertfordshire Building Control Ltd).
- The Council has entered into a partnership to facilitate the regeneration of Queensway, a parade of shops and mixed use properties in the town centre. The partnership entity is Queensway Properties (Stevenage) LLP and their accounts have been incorporated into the Group accounts section. The second partner is Marshgate Plc, a wholly owned company of the Council. Their accounts have not been included in the group accounts as Marshgate's transactions are deemed not material.

## Notes to the Core Financial Statements

### 3. Critical judgements in applying Accounting Policies (contd)

- From 1st April 2015 the Hertfordshire CCTV Partnership Ltd started trading. The new company for the year ended 31st March 2020 produced a loss before tax of £9,500. The SBC share of the loss is £3,500 with the remainder belonging to the partner councils (North Hertfordshire District Council, East Herts Council and Hertsmere Borough Council). Due to the small size of the new company group accounts have not been completed.
- In August 2016 the Hertfordshire Building Control Ltd started trading. The company was set up to deliver the building control function for the council and is jointly owned with six other local authorities in Hertfordshire. Due to the small shareholding the Council has not included any further disclosure notes regarding this company. Final accounts for Hertfordshire Building Control have yet to be published for 2019/20, however it is not expected that SBC's share of the profit/loss will be material.
- Within the Council dwellings valuation there are a number of properties which are likely to be sold within the next 12 months under the Right to Buy Scheme. The Council does not classify these properties as "Held for Sale" as at the balance sheet date as these properties are not actively marketed and nor is there any certainty as to which properties will be sold. Based on the number of successful applications made last year it is estimated that 24 properties could be sold. This would equate to an estimated balance sheet valuation of £1,898,000.
- The council considers that five commercial sites held in the town centre are not classified as "Investment Properties" as they are held for strategic planning purposes and not solely for rental income or capital appreciation. As such they are included under land and buildings on the balance sheet and expenditure and income on these sites is included within cost of services in the Comprehensive Income and Expenditure Statement.

### 4. Assumptions made about the future and other major sources of estimation uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet as at 31 March 2020 for which there are significant risk of material adjustments in the forthcoming financial year are shown on the following pages:

## Notes to the Core Financial Statements

### 4. Assumptions made about the future and other major sources of estimation uncertainty (Contd)

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<b>Provisions - Insurance</b>	The Authority has a provision of £383,000 for the settlement of insurance claim excesses, based on the estimated reserve for each claim. It is not certain that the all valid claims have yet been received by the Authority relating up to 31 March 2018 or that the estimated reserve levels will be sufficient.	An increase in the forthcoming year of 10% in either total number of claims or the estimated average settlement would each have the effect of adding £38,335 to the provision needed.
<b>Provisions – NDR Appeals</b>	The Authority has a provision of £2,837,000 for its share of the expected outcome of NDR appeals outstanding with the VOA as at 31 March 2020.	If 10% of the appeals that we have provided for were unsuccessful this would mean a reduction of £284,000 in the provision.
<b>Pension Liability</b>	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effect of the pension liability for changes in individual assumptions can be measured. For instance, a one year increase in member life expectancy would approximately increase the employer's defined benefit obligation by around 3-5% (£6,062,000-£10,104,000). (see also Note 26 Pensions – sensitivity analysis of actuarial assumptions).
<b>Property, Plant and Equipment</b>	To ascertain the balance sheet valuation of buildings and land held by the Council various estimation techniques can be used. The estimation technique used must be compliant with RICS standards and will be dependent on information available to the valuer.	In preparing the balance sheet valuations as at 31 March 2018 of community assets exiting use values (EUV) based on rental value (known and estimated) has been used by the Council's external valuers (Wilks Head and Eve (WHE)) as they have extensive experience of valuing local authority assets. Where this information is not known Depreciated Replacement Cost (DRC) is used. The DRC technique is known to return high current values and was estimated at £2.4Million higher. This would increase the value of assets and increase the balance on the Revaluation reserve- an unusable reserve. It should be noted that Balance sheet valuations are not used when determining the sale price of council assets.

## Notes to the Core Financial Statements

### 4. Assumptions made about the future and other major sources of estimation uncertainty (contd)

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
<b>Property, Plant and Equipment</b>	Assets are depreciated over useful lives that are dependent on assumptions regarding the level of repairs and maintenance that will be incurred in relation to each individual asset. The current economic climate makes it uncertain that the Authority will be able to sustain its current expenditure on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	Housing stock is split into elements including kitchens, bathrooms. The remaining element has an average useful life of 49 years. It is estimated that the annual depreciation charge for this residual element of the Council Houses would increase by approximately £229,500 if the useful life decreased by one year. This depreciation charge does affect the in year surplus of deficit of the HRA.
<b>Fair Value valuations</b>	The Authority owns a number of properties that have been valued based on rental yields.	If the Authority were to assess the security of the income streams more favourably, then the yield would increase giving a higher balance sheet valuation. The valuation would depend on the time of the expected rental income flows and rent increases specific to each asset.
<b>Benefit Overpayments</b>	At 31 March 2020, the Authority had a balance of housing overpayment debtors of 2,980,000. A review of significant balances suggested that an impairment of doubtful debts based on the age and repayment arrangements in place of 89% of the outstanding arrears was appropriate. However, it is not certain that such an allowance would be sufficient should the age profile of arrears increase.	If collection rates were to improve across all years by 10%, an equivalent reduction in impairment of doubtful debts of £1,272,500 would be required, returning this money back to the General Fund.
<b>Trade Debtors and Arrears</b>	At 31 March 2020, the Authority had a balance of trade debtors of £2,389,000 of which £880,000 was older than 3 months. A review of significant balances suggested that an impairment of doubtful debts based on the age and repayment arrangements in place of 15% of the outstanding arrears was appropriate. However, it is not certain that such an allowance would be sufficient should the age profile of arrears increase.	If arrears were to age by a further year, the Authority would be required to set aside a further £330,000 in provision.

## Notes to the Core Financial Statements

### 5. Expenditure and Income Analysis by Nature

**Exceptional/Material Items** - When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to the understanding of the Council's financial performance.

2018/19 £'000		2019/20 £'000
	<b>Expenditure</b>	
29,779	- Employee Benefits Expenses	31,268
22,895	- Other Services and Support Recharges Expenses	21,911
16,129	- Depreciation, Amortisation, Impairment	15,358
7,645	- Interest Payments	9,427
14,842	- NDR Tariff	12,968
1,211	- Payments to Housing Capital Receipts Pool	865
3,506	- (Gain)/ Loss on the Revaluation of assets	449
(2,914)	- (Gain)/Loss on the Disposal of Assets	(3,720)
	<b>Material Items of Expenditure</b>	
864	- Stevenage Leisure Limited Contract Payment	732
13,125	- Rent Allowances	10,825
17,462	- Rent Rebates	15,127
<b>124,544</b>	<b>Total Expenditure</b>	<b>115,210</b>
	<b>Income</b>	
(16,733)	- Fees, charges and other service income	(15,621)
(775)	- Interest and Investment Income	(1,761)
(23,390)	- Income from Council Tax & Non Domestic Rates (before tariff)	(23,003)
(2,938)	- Government Grants and Contributions	(13,131)
	<b>- Material Items of Income</b>	
(38,782)	- Housing Rents	(38,402)
(4,581)	- Car Parks	(4,857)
(12,995)	- Rent Allowances Subsidy	(10,649)
(17,309)	- Rent Rebate Subsidy	(14,981)
(3,108)	- Garage Rental Income	(3,149)
(3,570)	- Commercial Property Rent	(3,830)
<b>(124,181)</b>	<b>Total Income</b>	<b>(129,384)</b>
<b>363</b>	<b>Deficit / (Surplus) on the Provision of Services</b>	<b>(14,174)</b>

## Notes to the Core Financial Statements

### 5. Expenditure and Income Analysis by Nature (contd.)

#### Material items of capital income and expenditure:

The Council spent £43.5million on its capital programme in 2019/20, this included £18.4million on roofing and external works to its housing stock, £11.5million on providing new homes, £8.2million on the town centre and regeneration projects, and £5.3million on other General Fund and HRA capital projects.

### 6. Events after the Balance Sheet Date

*Events after the Balance Sheet date, both favourable and unfavourable, that occur between the end of the reporting period and the authorised for issue date are identified into two types:*

*Adjusting events – where the conditions existed at the end of the reporting period and the Statements are adjusted accordingly, and Non adjusting events - where conditions were not present but if material are disclosed as a note to the accounts.*

*Events after the authorised for issue date are not reflected in the Statement of Accounts.*

Events after the Balance Sheet date are reflected up to the 'authorised for issue' date. These accounts have been authorised for issue on 31 July 2020 by the Strategic Director (Chief Financial Officer). Events taking place after this date are not reflected in the Financial Statements or notes. Where events taking place before this date provide information about conditions existing at 31 March 2020, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

## Notes to the Core Financial Statements

### 7. Adjustments between Accounting Basis and Funding Basis under Regulations

*The Council sets aside specific amounts as **Reserves** for future policy purposes. Reserves are created by appropriating amounts in the Movement in Reserves Statement. When expenditure to be financed is incurred, it is charged to the appropriate revenue service account in that year to score against the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back through the Movement in Reserves Statement so that there is no net charge against Council Tax or HRA tenant for the expenditure.*

This note details the adjustments that are made to the total Comprehensive Income and Expenditure Statement recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against:

The **General Fund Balance** is the statutory fund into which all the receipts of the Council are required to be paid and, out of which, liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover). Stevenage Borough Council is a housing authority and as such General Fund Balances are not available to fund HRA services or vice versa.

## Notes to the Core Financial Statements

### 7. Adjustments between Accounting Basis and Funding Basis under Regulations (contd.)

The **Housing Revenue Account Balance** reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function. The Localism Act 2011 (Part VII) introduced the self-financing regime with Councils now able to keep the rent they collect and use it locally to maintain their social homes. As part of the new regime depreciation is now a real cost to the HRA and is transferred to the Major Repairs Reserve to finance future capital investment.

The Council is required to maintain the **Major Repairs Reserve** (MRR), which controls an element of the capital resources required to be used on HRA assets or capital financing purposes. Under the arrangements in the Self Financing HRA, to establish resources available on an annual basis in the Major Repairs Reserve, the regulations require the reserve to be credited with an amount equal to the total depreciation charges for all HRA assets. The balance shows the capital resources that are available and planned to be used for future years capital programme.

The **Capital Receipts Reserve** holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end. Part of the reserve (£10,364,000) can only be used towards the provision of additional council homes schemes and is restricted to a maximum of 30% of scheme costs.

The **Capital Grants Unapplied** Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to capital expenditure. The balance is restricted by grant terms as to the capital expenditure to which it can be applied and/or the financial year in which this can take place.

## Notes to the Core Financial Statements

### 8. Earmarked Reserves

*The Council sets aside specific amounts as **Reserves** for future policy purposes. Reserves are created by appropriating amounts in the Movement in Reserves Statement. When expenditure to be financed is incurred, it is charged to the appropriate revenue service account in that year to score against the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back through the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.*

The Council maintains a General Fund Balance and Housing Revenue Account. In addition there are a number of other earmarked (usable) reserves, for capital projects and revenue projects. One new earmarked reserves was established in 2019/20 - **Homelessness Prevention Reserve** to fund preventative homelessness schemes in future years. All other Earmarked reserves identified for specific purpose are detailed below:

- **Regeneration Reserve** -This reserve has been established to help fund the regeneration plans for Stevenage.
- **Housing and Planning Delivery Grant Reserve**- The Council received monies from the Government designed to incentivise housing growth and the underlying planning requirement to allocate land and put development plans in place. Due to the nature of the work the expenditure is often not aligned to the pattern of grant received.
- **New Homes Bonus Reserve**- The New Homes Bonus scheme commenced in April 2011. The scheme gives Councils a financial reward for new homes and properties brought back into use. The grant may be used to fund any expenditure. This reserve had been established to mainly fund one off schemes approved by Members, however changes to the scheme criteria has seen a reduction in the amount receivable and for 2019/20 there was no new funding for new one off initiatives.
- **Regeneration Assets Reserve**. -This reserve contains the ring fenced surplus/deficit from the management and maintenance of the regeneration assets held in the town centre and will be used to cover any future fluctuations in costs or rental stream, any balances remaining will be used to help repay any debt outstanding and/or contribute towards the regeneration costs for the Town Centre.
- **Town Centre Reserve** -This reserve contains the ring fenced surplus/deficit from the Town Centre management service and will be used fund activities and management in the Town Centre.
- **Insurance Reserve** - This reserve was set up in 2016/17 to fund proactive works to reduce insurance claims against the Council.

## Notes to the Core Financial Statements

### 8. Earmarked Reserves (contd)

- **Local Authority Mortgage Scheme (LAMS) Reserve** - This reserve was set up to cover the potential for any mortgage defaults on the Local Authority Mortgage Scheme introduced in 2012.. There have been no defaults on the scheme since inception and lending under the scheme is now closed. The balance was transferred to General Fund balances in 2019/20.
- **Capital Reserve** - This reserve was set up in 2013/14 as part of the Council's Integrated Financial Planning Process and funds capital projects. It was set up to reduce the Council's use of prudential borrowing to fund capital projects and the associated borrowing costs.
- **Future Town Future Council Reserve/ ICT reserve** - Members agreed that the residual balance of the FTFC reserve should be reallocated to an ICT reserve to fund any ICT budget pressure in 2019/20.
- **NDR Collection Fund Reserve** - This reserve has been set up in 2013/14 to meet any adverse impact on the General Fund arising from any losses in NDR income above the government's safety net rules. This reserve also now includes monies to cover any NDR losses as a result of Covid-19 impact on the Council's 2020/21 business rate gain.

Movements in the Council's usable reserves are shown in the Movement in Reserves Statement. A more detailed breakdown showing the amounts set aside from the General Fund balances to specific earmarked reserves is shown below. This sets out amounts used to provide financing for future expenditure plans and the amounts posted back from earmarked reserves to meet General Fund expenditure in 2019/20.

Earmarked Reserve:	31 March 2019	Transfer to Reserve (to fund future years expenditure)	Transfer from Reserve (to fund in year expenditure)	Net movement in year	31 March 2020
General Fund	£'000	£'000	£'000	£'000	£'000
Regeneration SG1	724	267	(164)	103	827
Housing & Planning Delivery Grant	61	0	(21)	(21)	40
New Homes Bonus	728	0	(98)	(98)	630
Regeneration Assets	1,343	107	(328)	(221)	1,122
Town Centre	55	0	(21)	(21)	34
LAMS (Local Authority Mortgage Scheme)	61	0	(61)	(61)	0
Capital Reserve	594	500	0	500	1,094
Insurance Mitigation	113	0	(10)	(10)	103
Future Town Future Council	54	60	(54)	6	60
NNDR Collection Fund	172	1,063	0	1,063	1,235
Homelessness	0	347	0	347	347
<b>Total Earmarked Reserves</b>	<b>3,905</b>	<b>2,344</b>	<b>(757)</b>	<b>1,587</b>	<b>5,492</b>

## Notes to the Core Financial Statements

### 8. Earmarked Reserves (contd)

In addition to the General Fund reserves listed above the Council set up an HRA earmarked reserve.

- **Interest Equalisation Reserve** - This reserve was set up in 2019/20 to mitigate any impact on interest changes that would impact on the HRA's planned use of borrowing to finance the HRA capital programme.

Earmarked Reserve: Housing Revenue Account	31 March 2019 £'000	Transfer to Reserve (to fund future years expenditure) £'000	Transfer from Reserve (to fund in year expenditure) £'000	Net movement in year £'000	31 March 2020 £'000
Interest Equalisation Reserve	0	0	5,713	5,713	<b>5,713</b>

### 9. Unusable Reserves

*The Council has a number of **Unusable Reserves** that are required for statutory reasons, to comply with proper accounting practice. As such these reserves are unavailable to fund expenditure. They include reserves kept to manage the accounting process for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council.*

31 March 2019 £'000		31 March 2020 £'000
(95,915)	Revaluation Reserve	(94,905)
(428,830)	Capital Adjustment Account	(446,109)
(12,063)	Deferred Capital Receipts Reserve	(12,009)
58,694	Pension Reserve	40,973
(406)	Collection Fund Adjustment Account	(928)
435	Accumulated Absences Account	535
<b>(478,085)</b>	<b>Total Unusable Reserves</b>	<b>(512,443)</b>

## Notes to the Core Financial Statements

### 9. Unusable Reserves (contd)

**9.1 The Revaluation Reserve** contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment (and intangible assets). The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost
- Used in the provision of services and the gains are consumed through depreciation, or
- Disposed of and the gains are realised.

The Reserve only contains revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2018/19 £'000	Revaluation Reserve	2019/20	
		£'000	£'000
<b>(118,594)</b>	<b>Balance as at 1 April</b>		<b>(95,915)</b>
(4,394)	Upward revaluation of assets	(6,458)	
25,821	Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	5,002	
21,427	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services		(1,456)
(611)	Difference between fair value depreciation and historic cost depreciation	2,100	
1,863	Accumulated gains on assets sold or scrapped	365	
1,252	Amount written off to the Capital Adjustment Account		2,465
<b>(95,915)</b>	<b>Balance as at 31 March</b>		<b>(94,906)</b>

**9.2 The Capital Adjustment Account** absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or additions to those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation reserve to convert fair value figures to a historic cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement. The Account contains accumulated gains and losses on Investment Property and gains recognised as donated assets that have yet to be consumed by the Council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date the Revaluation Reserve was created to hold such gains.

## Notes to the Core Financial Statements

### 9. Unusable Reserves (contd)

Note 7 provides further details on the source of all transactions, other than those involving the Revaluation Reserve, to the Capital Adjustment Account.

2018/19 £'000 (435,032)	Capital Adjustment Account	£'000	2019/20 £'000	£'000 (428,830)
	<b>Balance as at 1 April</b>			
	<b>Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income &amp; Expenditure Statement</b>			
16,002	Charges for depreciation & impairment of non-current assets	15,071		
3,801	Revaluation losses on Property, Plant & Equipment	610		
127	Amortisation of Intangible Assets	288		
861	Revenue expenditure funded from capital under statute	848		
4,112	Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income & Expenditure Statement	5,285		
24,903			22,102	
11,875	Queensway Deferred Capital Receipt		0	
(1,253)	Adjusting amounts written out of the Revaluation Reserve		(2,010)	
35,525	Net written out amount of the cost of non-current assets consumed in the year			20,092
	<b>Capital financing applied in the year</b>			
(6,418)	Use of the Capital Receipts Reserve to finance new capital expenditure		(8,033)	
(11,124)	Use of the Major Repairs Reserve to finance new capital expenditure		(18,030)	
(1,801)	Capital grants & contributions credited to the Comprehensive Income & Expenditure Statement that have been applied to capital financing		(8,582)	
(1,241)	Self Financing Debt repayment		(1,811)	
0	Application of grants to capital financing from the Capital Grants Unapplied Account		(93)	
(661)	Statutory provision for the financing of capital investment charged against the General Fund and HRA balances		(685)	
(7,783)	Capital expenditure charged against the General Fund and HRA balances.		0	
(29,028)				(37,141)
(295)	Movements in the market value of Investment Properties debited or credited to the Comprehensive Income & Expenditure Statement			(230)
<b>(428,830)</b>	<b>Balance as at 31 March</b>			<b>(446,109)</b>

## Notes to the Core Financial Statements

### 9. Unusable Reserves (contd)

**9.3 The Deferred Capital Receipts Reserve** holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2018/19 £'000		2019/20 £'000
(191)	<b>Balance as at 1 April</b>	<b>(12,063)</b>
<b>(11,875)</b>	Queensway	50
3	Amounts received in year & available for funding	2
<b>(12,063)</b>	<b>Balance as at 31 March</b>	<b>(12,011)</b>

**9.4 The Pension Reserve** absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to the pension fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pension Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid. (See also Note 26 Pension).

2018/19 £'000		2019/20 £'000
<b>50,052</b>	<b>Balance as at 1 April</b>	<b>58,694</b>
4,944	Re-measurements of the net defined benefit liability/(asset)	(21,808)
8,185	Reversal of items relating to retirement benefits debited or credited to the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Account	8,657
(4,487)	Employers' pension contributions and direct payments to pensioners payable in the year	(4,570)
<b>58,694</b>	<b>Balance as at 31 March</b>	<b>40,973</b>

## Notes to the Core Financial Statements

### 9. Unusable Reserves (contd)

**9.5 The Collection Fund Adjustment Account** manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax and business payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2018/19 £'000		2019/20 £'000
<b>(522)</b>	<b>Balance as at 1 April</b>	<b>(406)</b>
116	Amount by which council tax-income and non domestic rates income credited to the Comprehensive Income & Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with statutory requirements	(522)
<b>(406)</b>	<b>Balance as at 31 March</b>	<b>(928)</b>

**9.6 The Accumulated Absences Account** absorbs the difference that would otherwise arise on the General Fund and HRA Balance from accruing for compensated absences earned but not taken in the year, for example annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund and HRA balance is neutralised by transfers to/ from the Account.

2018/19 £'000		2019/20 £'000	£'000
<b>388</b>	<b>Balance as at 1 April</b>		<b>435</b>
(388)	Settlement or cancellation of accrual made at the end of the preceding year	(435)	
435	Amounts accrued at the end of the current year	535	
47	Amount by which officer remuneration charged to the Comprehensive Income & Expenditure Statement on an accruals basis is different from the remuneration chargeable in the year in accordance with statutory requirements		100
<b>435</b>	<b>Balance as at 31 March</b>		<b>535</b>

## Notes to the Core Financial Statements

### 10. Other Operating Expenditure and Financing and Investment Income and Expenditure

2018/19 £'000		2019/20 £'000
865	Payments to the Government Housing Capital Receipts Pool	864
346	Payments to the Government Housing Capital Receipts Pool return of 1 for 1 receipts	0
(3,019)	Gains/losses on the disposal of non current assets	(3,719)
<b>(1,808)</b>	<b>Total</b>	<b>(2,855)</b>

2018/19 £'000		2019/20 £'000	£'000
7,193	Interest payable & similar charges	7,652	
1,331	Pensions interest cost & expected return on pensions assets	1,377

11	Surplus taken to General Fund	(1)	
<b>5,882</b>	<b>Total</b>	<b>5,818</b>	

### 11 Taxation and Non Specific and Specific Grant Income

#### **Government Grants and Contributions**

*Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:*

- *The Council will comply with the conditions attached to the payments , and*
- *the grants or contributions will be received – without requiring any impairment for capital contributions.*

*Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as Grants - receipts in advance. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.*

## Notes to the Core Financial Statements

### 11. Taxation and Non Specific and Specific Grant Income (contd)

#### **Government Grants and Contributions contd**

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied to fund capital expenditure, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement.

2018/19 £'000		2019/20 £'000
	<b>Grants, Contributions credited to Taxation and Non Specific Grant Income</b>	
5,611	Council Tax	5,868
17,428	NNDR Retained income	17,135
(14,842)	NNDR Tariff payment	(12,968)
351	Revenue Support Grant	0
109	Council Tax Reform	0
1,096	New Homes Bonus	865
0	Apprenticeship Levy paid	0
297	Homelessness prevention grant	404
107	NDR administration Grant	110
769	s31 Grant	926
232	Disabled Facilities Grant	0
0	MHCLG Land release project	0
1,655	Other Capital Contributions	10,160
145	Other Government grants	105
<b>12,958</b>	<b>Total Grants, Contributions credited to Taxation and Non Specific Grant Income</b>	<b>22,605</b>
	<b>Credited to Services</b>	
30,304	Department of Work and Pensions Grants for rebates	25,630
249	Discretionary Housing Payments	202
547	Other	652
<b>32,580</b>	<b>Total Grants, Contributions credited to Services</b>	<b>26,484</b>

The Council has not received any material donations in 2019/20

## Notes to the Core Financial Statements

### 12. Heritage Assets

*A **heritage asset** will be recognised as an asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture and is not being used for operational purposes.*

*Heritage assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment. However, where information on cost or value is not available, and the cost of obtaining the information outweighs the benefits to the users of the financial statements the asset will not be recognised on the balance sheet. Where that valuation is material these assets will be recognised as a separate class of asset – heritage asset on the face of the balance sheet. Where heritage assets are not recognised in the balance sheet appropriate disclosure is made in the notes to the financial statements.*

*Acquisitions of heritage assets will be recognised at cost. However, where an asset is donated or acquired for less than fair value the asset will be recognised at valuation.*

*Disposal proceeds are disclosed separately in the notes to the financial statements and are accounted for in accordance with statutory accounting requirements relating to capital expenditure and capital receipts.*

*Depreciation will not be applied where a heritage assets has an indefinite life, however where there is evidence of physical deterioration or doubts arise as to the authenticity of the asset, the value of the assets will be reviewed. In addition assets held at current value will be reviewed with sufficient frequency as to ensure that the valuation is up to date.*

## Notes to the Core Financial Statements

### 12. Heritage Assets (contd)

Reconciliation of the carrying value of Heritage assets held by the Council

Cost or Valuation	Town Centre £'000	War Memorial £'000	Exhibits £'000	Civic Regalia £'000	Total £'000
<b>At 1 April 2019</b>	<b>833</b>	<b>53</b>	<b>200</b>	<b>53</b>	<b>1,139</b>
Additions	0	0	0	0	0
<b>At 31 March 2020</b>	<b>833</b>	<b>53</b>	<b>200</b>	<b>53</b>	<b>1,139</b>
<b>Accumulated Depreciation &amp; Impairment</b>					
<b>At 1 April 2019</b>	<b>(508)</b>	<b>(31)</b>	<b>0</b>	<b>0</b>	<b>(539)</b>
Depreciation charge	(33)	(7)	0	0	(40)
<b>At 31 March 2020</b>	<b>(541)</b>	<b>(38)</b>	<b>0</b>	<b>0</b>	<b>(579)</b>
<b>Net Book Value</b>					
<b>At 31 March 2020</b>	<b>292</b>	<b>15</b>	<b>200</b>	<b>53</b>	<b>560</b>
<b>At 31 March 2019</b>	<b>325</b>	<b>20</b>	<b>200</b>	<b>53</b>	<b>598</b>

The Council's collections of heritage assets are categorised as follows:

**Town Square including Clock Tower:** The town square includes the water feature and clock tower, the clock tower is a Grade II listed building.

**Museum Collection:** The museum collections include paintings, local history archives, Roman coin hoard from Chells, clocks, a bible from 1754 and a Chalice from 1572 from St Mary's in Aston. These items are reported as at their insurance valuation. The Council maintains an inventory of this collection however there is no readily available valuation of individual items. The Council believes that the benefits of obtaining a valuation for these items to the user of the accounts would not justify the cost given the specialised nature of this archive. Items that form the museum collection are deemed to have indeterminate lives, therefore the Council does not consider it appropriate to depreciate these assets.

**Statues and Sculptures:** The Council has a number of statues and sculptures around the borough which were gifted by the Commission for New Towns to the Stevenage Development Corporation which is now Stevenage Borough Council.

## Notes to the Core Financial Statements

### 12. Heritage Assets (contd)

**Public Art and Cultural Artefacts:** The Council has a number of public art works around the borough, however does not hold readily available valuations.

There is no readily available valuation held by the Council for statues, sculptures, public work of art or cultural artefacts as no definitive market value for these types of assets exist as they are not normally traded. The Council believes that the benefits of obtaining a valuation for these items to the user of the accounts would not justify the cost given the specialised nature of these assets, as such the Council has not recognised these assets on the balance sheet.

**War memorial:** The Council has a war memorial classified as a heritage asset and is valued at historic cost on the balance sheet.

**Civic Regalia:** The Council holds civic regalia for use by the mayor and mayoress for official ceremonial purposes. These are reported at insurance valuation. Due to the nature of these assets the Council does not deem it appropriate to depreciate these assets.

**Archaeological Sites including Six Hills Burial Site:** The Council does not consider that reliable cost or valuation information can be obtained for its archaeological site at Six Hills Burial site. This is because of the diverse nature of the asset held and lack of comparable market values, consequently the Council does not recognise these assets on the balance sheet.

Historical valuations and valuation method of heritage assets is shown below.

Method of valuation	Heritage Assets				Total Heritage Assets £'000
	Town Square £'000	Museum Collection £'000	War Memorial £'000	Civic Regalia £'000	
Cost or Valuation	833	0	53	0	<b>886</b>
Valued at Insurance Valuation	0	200	0	53	<b>253</b>
	833	200	53	53	<b>1,138</b>

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment

#### ***Property, Plant and Equipment (PPE)***

*Assets that have physical substance and are held for use in the provision of services, for rental to others or for administrative purposes and are expected to be used in more than one financial year are classified as Property, Plant and Equipment.*

**Recognition:** *expenditure on the acquisition, creation or enhancement of tangible non current assets is capitalised on an accruals basis, provided that the future economic benefits or service potential will flow to the Council and that the cost can be measured reliably. Expenditure that secures but does not extend the previously assessed standards of performance of asset (e.g. repairs and maintenance) is charged to revenue as it is incurred.*

**Measurement and valuations:** *Non Current Assets are initially measured at cost, comprising, in addition to the purchase price, all expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended.*

*Valuations of the Council's freehold and leasehold properties are co-ordinated by the Council's In-House Valuer in accordance with International Financial Reporting Standards (IFRS) as applied to the United Kingdom public sector and interpreted by the current CIPFA Code of Practice for Local Authority accounting. The valuations are made in accordance with the RICS Valuation – Professional Standards, January 2014 as published by the Royal Institution of Chartered Surveyors, in so far as that is consistent with the IFRS standards and CIPFA interpretation with the exception that not all properties were inspected. This was neither practical nor considered by the Valuer to be necessary for the purpose of the valuation. A proportion of the assets are re-valued at each 1 April as part of a continuous rolling programme of valuation. The rolling programme was recently amended to include valuations on opening balance in line with common practice. Non Current Assets are then carried in the Balance Sheet using the following measurement bases:*

- Council dwellings – current value determined using the basis of existing use value for social housing (EUV-SH)*
- Where possible all other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV)*
- Where assets cannot be valued by any other method depreciated historic costs is used.*

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment (contd)

#### ***Property, Plant and Equipment***

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value. Where the DRC approach was used it was in accordance with RICS GN 6, titled "Depreciated Replacement Cost (DRC) method of Valuation for Financial Reporting". RICS GN6 requires Modern Equivalent (ME) to be considered if properties are valued using the DRC method and this was applied to last year's review.

*Fair Value Hierarchy* - To establish the fair value of its surplus assets, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses appropriate valuation techniques for each circumstance, maximising the use of relevant known data and minimising the use of estimates or unknowns. This takes into account the three levels of categories for inputs to valuations for fair value assets:

- Level 1 – quoted prices.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – unobservable inputs for the asset or liability.

In regard to property assets the total value has been apportioned between its land and non-land (i.e. building) parts, with the latter representing the depreciable amount.

Where non-property assets (e.g. vehicles plant and equipment) have short useful lives, low value or both, depreciated historical cost is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value, but as a minimum every five years. In addition should current valuations of similar class of asset suggest material differences in valuations, the entire class to which the asset belongs would be re-valued. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of an impairment loss previously charged to a service.

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment (contd)

#### ***Property, Plant and Equipment***

*Where decreases in value are identified, they are accounted for:*

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carry amount of the asset is written down against that balance (up to the amount of the accumulated gains)*
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.*

*The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.*

*New council house properties, either constructed or acquired at market value, are re-valued downwards on completion to recognise that Council Dwellings are valued on the balance sheet at existing use value-social housing (38% of the market value).*

*HRA properties are re-valued at 1 April on a Beacon Basis. Beacon types being defined by the number of bedrooms, the type of property, its area and whether it is a traditional or non-traditional build. So, with the exception of the properties which were converted into maisonettes and expenditure on replacing fully depreciated components, works done after this date have not been deemed to add value to the Beacon. The Council's housing stock was valued by external valuer Savills. The latest valuation certificates are dated 1 April 2018. A review is undertaken at year end to ensure valuations undertaken on 1 April are still appropriate as at the balance sheet date and uplifted/amended if required.*

*General Fund properties' valuation certificates are dated 1 April 2018 and revaluations are carried out by private firms of Chartered Surveyors – Wilks Head and Eve.*

*The revaluation process is co-ordinated by the Council's Estates Manager S Longbottom FRICS.*

***Impairment:*** *Assets are assessed annually for any indication of impairment. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.*

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment (contd)

#### ***Property, Plant and Equipment***

Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains)

- Where there is no balance on the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service lines in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

**Depreciation:** Properties classified PPE are valued on the basis of Current Value (Existing Use Value (EUUV)) and the total value has been apportioned between its land and non-land (i.e. building) parts, with the latter representing the depreciable amount. Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. Exception is made for assets without a determinable finite useful lives (i.e. freehold land and certain community assets) and assets not yet available for use (i.e. assets under construction). Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the life of the property as estimated by the valuer
- vehicles, plant and equipment – a percentage of the value of each class of assets in the Balance Sheet, as advised by a suitably qualified officer
- infrastructure – straight-line allocation over 25 years.

The useful economic lives for property, plant and equipment which are depreciated are:

Council Dwellings	up to 50 years
Operational buildings	up to 50 years
Vehicles, plant and equipment	3-7 years
Computer Equipment	3-7 years

**Componentisation:** Where an asset has major components with different estimated useful lives, these are depreciated separately.

The criteria applied by the Council for componentisation, is that where the cost of a component exceeds 15% of the cost of the asset, and there is a significant difference in depreciable life of a component, compared to the asset as a whole, the Council will

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment (contd)

#### ***Property, Plant and Equipment***

*componentise the asset, to ensure no material distortions in either the value of the asset or the charge made for use of the asset.*

*Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account. The Council's housing stock has been accounted for using componentisation since April 2011.*

**Charges to Revenue for Non-Current Assets** - Service, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- *depreciation attributable to the assets used by the relevant service*
- *revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which losses can be written off.*
- *amortisation of intangible non-current assets attributable to the service.*

*The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisations. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.*

*Depreciation charged to the Housing Revenue Account (HRA) is not reversed out and is now a cost to the HRA. HRA depreciation is transferred to the Major Repairs Reserve to fund future HRA capital investment*

## Notes to the Core Financial Statements

### 13. Property, Plant and Equipment (contd).

The valuations provided for non-housing stock assume that there are no encumbrances to the Council's Current Value in the use of those assets. It is however noted that if there is a disposal of the Business Technology Centre before 29 November 2022 it will trigger a claw-back to East of England Development Agency (EEDA) in accordance with a formula. There is no intention on the part of the Council to dispose of this asset.

The inputs to inform the Council's Surplus Asset valuation have been determined at level 2 as per the fair value hierarchy (see also policy detail on page 69).

### Impairment Losses

During 2019/20 (as in 2018/19) the Council did not incur any losses as a result of impairment. The table overleaf shows the movement in valuations of property, plant and equipment.

*Fairlands Valley lake*

## Notes to the Core Financial Statements

### 14. Investment Property

**Investment properties** are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arms-length. Properties are not depreciated but are revalued annually according to the market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal. Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a net gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund in the Movement in the Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts reserve.

#### **Fair Value Hierarchy**

To establish the fair value of its investment properties, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses appropriate valuation techniques for each circumstance, maximising the use of relevant known data and minimising the use of estimates or unknowns. This takes into account the three levels of categories for inputs to valuations for fair value assets:

- Level 1 – quoted prices.
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – unobservable inputs for the asset or liability.

## Notes to the Core Financial Statements

### 14. Investment Property (contd)

2018/19 £,000		2019/20 £,000
<b>24,212</b>	<b>Balance at start of year</b>	<b>24,988</b>
	Additions:	
481	Subsequent expenditure	0
0	Disposals	(789)
295	Net gains/(losses) from fair value adjustments	230
	Transfers:	
0	From Property, Plant & Equipment	0
0	To Property, Plant & Equipment	0
0	To Assets held for sale	(410)
<b>24,988</b>	<b>Balance at end of year</b>	<b>24,019</b>

The Council's investment property portfolio has been assessed as Level 2 for valuation purposes.

#### Valuation Techniques Used to Determine Level Two Fair Values for Investment

##### Properties:

The values have been derived from a desktop valuation taking into account existing lease terms and rentals, market rentals and yields, and then adjusted to reflect the nature and profile of the particular asset valued.

The Council's commercial property portfolio located within the Borough boundary are measured using the income approach, where the expected cash flows from the property are discounted at an appropriate discount rate (reflecting the nature and risk profile of the particular asset valued), to establish the present value of the net income stream.

The Council's commercial property portfolio is therefore categorised as Level Two in the fair value hierarchy as the measurement technique uses significant unobservable inputs to determine the fair value measurements (and there is no reasonably available information that indicates that market participants would use different assumptions).

There has been no change in the valuation techniques used during the year for investment properties.

##### Highest and Best Use of Investment Properties

In estimating the fair value of the Council's investment properties, the highest and best use of the properties is deemed to be their current use.

##### Valuers

The investment property portfolio has been valued at 1 April 2020 in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The revaluations are carried out by Wilks Head and Eve.

## Notes to the Core Financial Statements

### 14. Investment Property (contd)

The valuations assume that there are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance on income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property. Nor does the Council have any contractual obligations to repair, maintain or enhance the investment properties with the exception of a very small proportion of the Council's investment property portfolio where the leases are internal repairing leases and the Council is responsible for the external fabric of the building.

The following items of income and expenditure have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

2018/19 £,000		2019/20 £,000
2,414	Rental Income from Investment Property	2,501
(882)	Less direct operating expenses arising from Investment Property	(883)
<b>1,532</b>	<b>Net gain</b>	<b>1,618</b>

### 15. Intangible Assets

**Intangible Non Current Assets** - Expenditure on non-monetary assets that do not have physical substance but are identifiable and controlled by the Council (e.g. software licences) is capitalised when it will bring benefits to the Council for more than one financial year. The balance is amortised on a straight line basis to the Information Communications Technology (ICT) service revenue account and then recharged out across the service headings in the Comprehensive Income and Expenditure Statement over the economic life of the asset to reflect the pattern of consumption of benefits. All software is given a finite useful life, based on an assessment of the period that the software is expected to be of use to the Council - usually five years

Amounts are only revalued where the fair value of the assets held can be determined by reference to an active market. No such assets exist for this Council.

Any losses from impairment are recognised in the ICT service revenue account and the Comprehensive Income and Expenditure Statement.

## Notes to the Core Financial Statements

### 15. Intangible Assets (contd)

#### ***Intangible Non Current Assets contd-***

*Any gain or loss from the disposal or abandonment of an asset is posted to the other operating expenditure line on the Comprehensive Income and Expenditure Statement. Where expenditure qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance and are therefore reversed out through the Movement in Reserves Statement and Capital adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.*

*HRA intangible assets are depreciated in accordance with the council's policy but the charge is not reversed out but forms part of the transfer to the Major Repairs Reserve.*

The intangible assets include a number of services such as 'business objects' which is a report and project modelling tool. There was a total amortisation of £250,868 for all intangible assets charged to revenue in 2019/20 (2018/19 - £200,271). There are no items of capitalised software that are individually material to the financial statements. The movement on Intangible Asset balances during the year is as follows:

2018/19 £000's		2019/20 £000's	£000's
	<b>Balance as at 1 April</b>		
1,066	Gross carrying amounts		1,307
(326)	Accumulated amortisation		(526)
<b>740</b>	<b>Net carrying amount at 1 April</b>		<b>781</b>
	<b>Movements in year:</b>		
144	Purchases	251	
98	Transfer from Asset under construction	91	
(201)	Amortisation for the period	(288)	
41			54
<b>781</b>	<b>Balance at 31 March</b>		<b>835</b>
	<b>Comprising:</b>		
1,308	Gross carrying amounts		1,649
(527)	Accumulated amortisation		(814)
<b>781</b>			<b>835</b>

## Notes to the Core Financial Statements

### 16. Capital Expenditure and Capital Financing

#### **Revenue Expenditure Funded From Capital Resources Under Statute –**

*General Fund expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account is made: the amounts charged are then reversed out so that there is no impact on the Council Tax payer.*

*No such expenditure was incurred by the HRA in 2018/19.*

The total amount of capital expenditure incurred in the year is shown in the following table, together with resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

As at 31 March 2020 significant commitments for major projects already underway included:-

*Demolition and site clearance for new homes at Kenilworth (Stirling Close)*

	£'000
Decent Homes and major repairs	22,920
Housing Regeneration	29,469
Town Centre Regeneration	11,970
Garage Strategy	3,582
<b>Total</b>	<b>67,941</b>

63	<b>Increase/(decrease) in Capital Financing requirement</b>	7,928

## Notes to the Core Financial Statements

### 17. Leases

*The Council accounts for **leases** as finance leases when substantially all the risks and rewards incidental to ownership of the property, plant or equipment (PPE) from the lessor to the lessee. All other leases are classified as operating leases.*

*Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.*

*Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.*

#### **The Council as Lessee**

**Finance Leases:** *PPE held under finance leases is recognised in the Balance Sheet at the commencement date of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into the lease are applied to writing down the lease liability.*

*Lease payments are apportioned between:*

- *A charge for the acquisition of the interest in the PPE applied to write down the lease liability, and*
- *A finance charge (debited to the Financing and Investment Income and Expenditure line in the CIES).*

*PPE recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the assets estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).*

*The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by revenue contributions in the General Fund balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.*

## Notes to the Core Financial Statements

### 17. Leases (contd.)

**Operating leases:** Rentals paid under operating lease are charged to the CIES as an expense of the service benefitting from the use of the leased PPE. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments.

#### **The Council as Lessor**

**Finance Leases:** Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease the carrying amount of the asset in the Balance Sheet (whether PPE or Assets held for sale) is written off to the Other Operating Expenditure line in the CIES as part of the gain or loss on disposal. A gain is matched by a lease (long term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- A charge for the acquisition of the interest in the property – applied to write down the lease debtor, and
- Finance income (credited to the Financing and Investment Income and Expenditure line in the CIES).

The gain credited to the CIES on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement.

When future rentals are received, the element for the capital receipt for the disposal is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not charged against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund in the Movement on Reserves Statement.

**Operating Leases:** Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained on the Balance Sheet. Rental income for investment properties is credited to the Other Operating Expenditure line in the CIES.

## Notes to the Core Financial Statements

### 17. Leases (contd.)

#### Operating Leases

**Plant and Equipment:** In 2019/20 the Council had use of multi-functional printing devices and four vehicle leases. The annual amount charged under these arrangements in 2019/20 was £28,000 (2018/19 £59,000). Future lease payments due are shown in the table below:

31 March 2019			Lease Costs Payable	31 March 2020		
Printers £'000	Assigned Vehicles £'000	Total £'000		Printers £'000	Assigned Vehicles £'000	Total £'000
9	13	22	Not later than one year	14	4	18
37	0	37	Later than one year	53	0	53

**Property:** Council as Lessor - the authority currently leases 345 premises which include 177 shops, 35 workshops, 11 public houses, 10 surgeries and 112 miscellaneous. These leases are accounted for on an operating lease basis. The rental receivable in 2019/20 was £3,357,000, (2018/19 £3,433,000).

The future minimum lease payments receivable under non-cancellable leases in future years are:

31 March 2019 £'000	Future minimum lease payments	31 March 2020 £'000
3,317	Not later than one year	3,282
13,267	Later than one year and not later than five years	13,128
46,842	Later than five years	49,230

**Finance Leases Lessor and Lessee: Property, Plant, and Equipment:** In 2018/19 the council acquired a 37 year head lease from Aviva for Queensway. This was immediately sublet to Queensway Properties (Stevenage) LLP for 37years. (see also Group Accounts).

31 March 2019 £'000	Future minimum lease to Aviva payments	31 March 2020 £'000
508	Not later than one year	278
2,082	Later than one year and not later than five years	1,583
19,825	Later than five years	15,323

508	Not later than one year	508
2,082	Later than one year and not later than five years	1,583
22,415	Later than five years	15,323

## Notes to the Core Financial Statements

### 18. Financial Instruments

#### **Financial Assets**

*Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:*

- *amortised cost*
- *fair value through profit or loss (FVPL), and*
- *fair value through other comprehensive income (FVOCI)*

*The authority's business model is to hold investments to collect contractual cash flows.*

*Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument). The Council holds no assets that fall into this category.*

*Financial assets measured at amortised cost (loans and receivables) are initially measured at fair value then subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.*

**Cash and Cash Equivalents** *are represented by notes and coins held by the Council and deposits available on demand. Cash Equivalents are represented by short-term, highly liquid investments that can be readily converted (within seven days) into known amounts of cash and that are subject to an insignificant risk of changes in value.*

*In the Cash Flow Statement and Balance Sheet cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and where they form an integral part of the Council's cash management.*

#### **Financial liabilities**

*Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the CIES are based on the carrying value of the liability, multiplied by the effective interest rate for the instrument. For most of the borrowings that the Council has, this means that the amount in the Balance Sheet is the outstanding principal repayable (plus accrued interest). Interest chargeable to the CIES is the amount payable for the year in the loan agreement.*

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

#### **Financial Assets**

#### **Fair Value Hierarchy**

*The Council is required to classify the valuation of financial instruments into three levels, according to the quality and reliability of information used to determine fair values.*

- *Level 1 Inputs – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.*
- *Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.*
- *Level 3 Inputs – unobservable inputs for the asset or liability. Such instruments would include unquoted equity investments and hedge fund of funds, neither of which the Council currently invests in.*

The Council's activities expose it to a variety of financial risks. The key risks are:

- credit risk – the possibility that other parties might fail to pay amounts due to the authority
- liquidity risk – the possibility that the authority might not have funds available to meet its commitments to make payments
- Re-financing risk – the possibility that the authority might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms
- market risk – the possibility that financial loss might arise for the authority as a result of changes in such measures as interest rates and stock market movements

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by the Council's treasury team, under policies approved annually (in February prior to the financial year to which it relates) by the Council in the Annual Treasury Management Strategy. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash.

The Strategy includes the Prudential Indicators, the key objectives of which are

- To ensure that capital investment plans are affordable, prudent and sustainable.
- To ensure treasury management decisions accord with good professional practice and in a manner that supports affordability, prudence and sustainability.
- To be consistent with and support local strategic planning, local asset management and optional appraisal.

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd)

The Council's Treasury Management Strategy applicable from 1 April 2019 complies fully with the code of practice. Further details on the Council's Treasury Management Strategy can be found on Stevenage Borough Council's website

**Credit Risk:** Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the authority's customers. Deposits are not made with banks and financial institutions unless they meet the Council's criteria as specified in the Treasury Management Strategy.

**Expected Credit Loss Model:** the authority recognises Expected Credit Losses (ECL) on all of its financial assets held at amortised cost [or where relevant FVOCI], either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the authority.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

	Amount at 31 March 2020 £'000	Historical experience of default %	Historical experience adjusted for market conditions at 31 March 2020 %	Estimated maximum exposure to default & uncollectability 31 March 2020 £'000	Estimated maximum exposure to default & uncollectability 31 March 2019 £'000
<b>Financial Institutions</b>	<b>A</b>	<b>B</b>	<b>C</b>	<b>(AxC)</b>	
Banks & Building Societies	26,092	0	0		0
Other Local Authorities	5,077	0	0		0
Other Counter parties	23,109	0	0		0
Trade Debtors	2,389	15%	18%	441	302
<b>Total</b>	<b>56,667</b>			<b>441</b>	<b>302</b>

The ECL on Treasury Financial Assets is immaterial. The historical experience of default for trade debtors is based on the debt provision calculated as at 31st March 2020. The calculation is based on the age of the trade debtor and debt type. The Council does not generally allow credit for customers, such that £880,000 of the £2,389,000 trade debtors balance has passed its due date for payment. The past due amount can be analysed by age and service in the following table;

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

Age of Sundry Debt	Estates Services £'000	Direct Services (incl Recycling) £'000	Planning £'000	Other £'000	Total Trade Debtors £'000
<b>less than 3 months</b>	<b>550</b>	<b>154</b>	<b>20</b>	<b>785</b>	<b>1509</b>
Over Term:					
3-6 months	82	3	0	36	121
6 months - 1 year	52	0	0	299	351
over 1 year	235	0	22	151	408
<b>Total trade debtors over term</b>	<b>369</b>	<b>3</b>	<b>22</b>	<b>486</b>	<b>880</b>
<b>Total Trade Debtors 31 March 2020</b>	<b>919</b>	<b>157</b>	<b>42</b>	<b>1271</b>	<b>2,389</b>
<b>Total Trade Debtors 31 March 2019</b>	<b>399</b>	<b>831</b>	<b>136</b>	<b>607</b>	<b>1973</b>

**Deferred Capital Receipts** are amounts derived from sales of assets that will be received in instalments over agreed periods of time. They arise principally from a finance lease to Queensway LLP (see also Group Accounts). As at 31 March 2020 Deferred Capital Receipts were £12,009,000 (31 March 2019 £12,061,000).

These figures do not include debt relating to Council Tax or Non-domestic Rates as these are considered to be statutory debts. Debt relating to Council house rents is disclosed in Note HRA2 Rent and Supported Housing Arrears.

**Liquidity risk:** The Council's cash flow is managed so that cash is available as needed. If the unexpected happens the Council has ready access to borrowings from the money markets and the Public Works Loan Board (PWLb).

**Interest rate risk:** The Council is exposed to significant risk in terms of its exposure to interest rate movements on its investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects on Stevenage Borough Council: Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise, whilst the fixed term investment/borrowing cost/income will remain constant.

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

Changes in interest receivable on variable rate investments will be posted to the Comprehensive Income and Expenditure Statement and affect the General Fund Balance. Movements in the fair value of fixed rate investments will be reflected in the Movement in Reserves Statement.

If interest rates had been 1% higher with all other variables held constant (according to assessment as at 31 March 2020), the financial effect would be:

	£'000
Increase in interest receivable on investments	( 636)
Impact on Comprehensive Income & Expenditure Statement	( 636)
Share of overall impact credited to the HRA	405
Impact on Movement in Reserves Statement	231

The impact of a 1% reduction in interest rates would be as above but with movements being reversed. The above represents what the cost will be less the payment due to the HRA. The PWLB borrowings undertaken to date are all fixed rate, therefore there would be no impact from a rise in interest rates, other than the rate at which borrowing which has not yet been physically taken could be borrowed at in future.

**Price risk** The Council does not invest in equity shares and does not have any shareholdings. (The Municipal Bond purchased in 2015/16 (£10,000) is not held for trading purposes but to support and have access to preferential borrowing rates from the Municipal Bond Agency, set up by the Local Government Association. As such this transaction has been classed as a non-current investment.)

**Foreign exchange risk:** The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

#### Financial Instruments:

Councils are required to define all financial instruments disclosed in the Balance Sheet into further categories. The items disclosed in the Balance Sheet are made up of the following categories of financial instruments:

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

		Long Term		Current	
		31 March 2019 £'000	31 March 2020 £'000	31 March 2019 £'000	31 March 2020 £'000

15 -20 years	£87,374,000
20-25 years	£510,000
<b>Total</b>	<b>£209,229,424</b>

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

The gains and losses recognised in the Comprehensive Income & Expenditure Statement in relation to financial instruments are made up as follows:

31 March 2019			31 March 2020		
Financial Liabilities Measured at Amortised Cost £000	Financial Assets: Loans and Receivables £000	Total £000	Financial Liabilities Measured at Amortised Cost £000	Financial Assets: Loans and Receivables £000	Total £000
7,193	0	7,193	7,652	0	7,652
<b>7,193</b>	<b>0</b>	<b>7,193</b>	<b>7,652</b>	<b>0</b>	<b>7,652</b>
0	(825)	(825)	0	(1,399)	(1,399)
<b>0</b>	<b>(825)</b>	<b>(825)</b>	<b>0</b>	<b>(1,399)</b>	<b>(1,399)</b>
<b>7,193</b>	<b>(825)</b>	<b>6,368</b>	<b>7,652</b>	<b>(1,399)</b>	<b>6,253</b>
Interest Expense			Interest income		
<b>Total expense in Surplus or Deficit on the Provision of Services</b>			<b>Total income in Surplus or Deficit on the Provision of Services</b>		
<b>Net gain/(loss) for the year</b>			<b>Net gain/(loss) for the year</b>		

Financial assets and financial liabilities (Treasury loans and investments) are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments using the following assumptions:

- The fair value of Public Works Loan Board (PWLB) loans is calculated using the “new loan rate”.
- The fair value of Non -PWLB loans is calculated using the “new loan rate”.
- No early repayment or impairment is recognised
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value
- The fair value of trade and other receivables is taken to be the invoiced amount.

The Valuation Techniques Used to Determine Level Two Fair Values for Investments:

The fair value of the investments have been provided by Link Asset Services and are based on a financial model valuation which uses market information for similar instruments. The Code states that fair values disclosures are not required for short term trade payables and receivables since the carry amount is a reasonable approximation of fair value.

## Notes to the Core Financial Statements

### 18. Financial Instruments (contd.)

31 March 2019		31 March 2020	
Carrying amount £'000	Fair Value £'000	Carrying amount £'000	Fair Value £'000
		<b>Long Term Investments</b>	
10,007	10,062	Long term loans & receivables	9,764 9,871
<b>10,007</b>	<b>10,062</b>	<b>Total</b>	<b>9,764 9,871</b>
		<b>Loan Debt</b>	
0	0	Market Debt	0 0
105,483	237,586	PWLB Debt	209,342 232,918
<b>105,483</b>	<b>237,586</b>	<b>Total</b>	<b>209,342 232,918</b>

Valuation Techniques Used to Determine Level Two Fair Values for Public Works Loan Board (PWLB) Loans:

The fair value of the liabilities is greater than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional future loss (based on economic conditions at 31 March 2020) arising from a commitment to pay interest to lenders above current market rates.

The fair value of Public Works Loan Board (PWLB) loans of £232.918Million measures the economic effect of the terms agreed with the PWLB compared with estimates of the terms that would be offered for market transactions undertaken at the Balance Sheet date. The difference between the carrying amount and the fair value measures the [additional/reduced] interest that the authority will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

The Authority has used a transfer value for the fair value of financial liabilities. We have also calculated an exit price fair value of £291.619Million, which is calculated using early repayment discount rates. The Authority has no contractual obligation to pay these penalty costs and would not incur any additional cost if the loans run to their planned maturity date.

The fair value of loan debt is higher than the carrying amount because the council's portfolio of loans includes fixed rate loans where the prevailing rates at the Balance Sheet date are lower than the interest rate payable. The fair value includes the premium that would be payable should the council reschedule its debt.

## Notes to the Core Financial Statements

### 19. Debtors

The Council's debtors (net of the provision for bad and doubtful debts) are as follows:

31 March 2019 £'000		31 March 2020 £'000
2,209	Central Government Bodies	1,585
177	Other Local Authorities	152
509	Housing Rents & Leaseholders	1,198
699	Collection Fund	379
133	Queensway Lease	89
6,600	Other Debtors	11,118
<b>10,327</b>	<b>Total</b>	<b>14,521</b>

The Council has two long term debtor:

**Hertfordshire Building Control** – This relates to a two year loan (£107,000). An extension to the loan was granted in 2019/20.

**Queensway Properties (Stevenage) LLP** –This relates to a 37 year lease and borrowing (£18,009,000) for properties 85-100 Queensway and 24-26 The Forum . (see also Note 17 and the Group Accounts section of the statement)

## Notes to the Core Financial Statements

### 20. Creditors and Receipts in Advance

**Employee accrued benefits payable** - Short-term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave and paid sick leave and are recognised as an expense for service in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlement (or any form of leave e.g. flexi time) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rate applicable in the following year, being the year in which the employee takes the benefit. Stevenage Borough Council policy states that no more than five days annual leave should be carried over into the next financial year unless permission is granted in exceptional circumstances. The flexi time scheme is available to the majority of employees except in services areas where, due to the nature of the work, it is not possible for employees to fully participate.

31 March 2019 £'000		31 March 2020 £'000	£'000
6,451	<b>Creditors:</b>	5,169	
8	Central Government Bodies	3,605	
298	Other Local Authorities	0	
436	Collection Fund	535	
8,872	Accumulated leave	10,335	
<b>16,065</b>	Other Entities & Individuals		
	<b>Total Creditors</b>		<b>19,644</b>
	<b>Receipts in Advance:</b>		
0	Other Local Authorities	0	
1,094	Housing	1,205	
562	Collection Fund	270	
569	Other Entities & Individuals	1,703	
<b>2,225</b>	<b>Total Receipts in Advance</b>		<b>3,178</b>
<b>18,290</b>	<b>Total</b>		<b>22,822</b>

The Council has long term creditors (£20,094.000) comprising principally:

**Local Enterprise Partnership (LEP)** – this relates to a loan to purchase a town centre regeneration asset (£762,000) which will be repayable in 2021/2022 on completion of the regeneration plan and a second regeneration asset (£1,332,000) repayable in 2024/25.

**85-100 Queensway and 24-26 The Forum** This relates to a 37 year finance lease (£11,766,000) for these properties, subsequently sublet to Queensway Properties (Stevenage) LLP.

## Notes to the Core Financial Statements

### 21. Assets held for sale

**Disposals and Non-Current Assets Held for Sale:** Where it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than continued use, it is reclassified as an asset held for sale. The asset is revalued at that point. Any subsequent gains and losses are posted to Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Assets held for sale are only recognised where a property is being actively marketed, and is likely to result in a probable sale within 12 months of the balance sheet date.

A reasonable assessment can be made of General Fund disposals. However, for HRA Council dwellings, at the balance sheet date, the Council cannot reliably estimate specific disposals for the following 12 months. For example Right to Buy requests are received from tenants which may not result in a subsequent sale. As the numbers involved are not material, Right to Buy properties which are nearing completion of a sale are not recognised as Assets held for sale and no adjustment is made in the accounts for these. Fair value gains are only recognised up to the amount of any previously recognised losses, recognised in the revenue account.

**Disposals and Non-Current Assets Held for Sale (contd)**

Fair value gains are only recognised up to the amount of any previously recognised losses, recognised in the revenue account.

When an asset is disposed of or decommissioned, the value of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts in excess of £10,000 are categorised as capital receipts. With the introduction of Self-financing in April 2012 a new government calculation was introduced to apportion right to buy receipts due from sales of the Council's housing stock. The Council agreed to participate in the new scheme that enabled the Council to retain a proportion of the receipts that can only be used for new build provision.

Under the new scheme a proportion of the HRA right to buy receipts go to the government. The Council then retains the remainder of the receipts to cover four elements; administration costs, allowable debt, a capped share of the receipt for the local authority, and an allowance for new build provision. There is a duty to use the element retained for new build provision within three years, funding up to a maximum of 30% of the cost of any individual new build scheme. Other housing receipts from land may be fully retained by the Council if spent on affordable housing,

## Notes to the Core Financial Statements

### 21. Assets held for sale (contd)

#### **Disposals and Non-Current Assets Held for Sale (contd)**

regeneration or repayment of HRA debt. The capital receipts retained by the Council are required to be credited to the Capital Receipts Reserve and used for capital expenditure. The written-off value of disposals for General Fund and HRA assets is not a charge against council tax or tenants, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund / Housing Revenue Account Balance in the Movement in Reserves Statement.

**Pre-Sale Expenses and Disposal costs:** The Council is able to offset costs incidental to disposals against the capital receipt. This is restricted for General Fund disposals to a maximum of 4% of the capital receipt. Any costs not covered by a separate agreement with the purchaser to meet the Council's revenue costs are considered for this treatment.

31 March 2019 £'000		31 March 2020 £'000
1,700	Balance at start of year	0
0	Transfer from surplus assets	153
0	Transfer from investment property	410
(1,700)	Assets sold	0
0	Balance at year end	563

## Notes to the Core Financial Statements

### 22. Provisions

*Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by transfer of economic benefits, but where timing of the transfer is uncertain. The Council's policy is to assume all transfers of economic benefit will be made within 12 months. The Council recognises that on rare occasions a provision is utilised after 12 months (for example an insurance provision), however these instances do not materially alter the financial statements. Provisions are charged to the appropriate service account in the year that the Council becomes aware of the obligation, based on the best estimate at the balance sheet date of the expenditure required to settle the obligation.*

*Where payments are eventually made, they are charged to the provision set up in the Balance Sheet. Estimated settlements are reviewed and where it becomes less than probable that a transfer of economic benefits will not now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service revenue account.*

*Where some or all of the payment required to settle a provision is expected to be recovered from another party (for example from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.*

*Impairment for doubtful debts are separately disclosed and included in debtors (Note 21).*

**Insurance provision:** Provides for excesses relating to known claims.

**Organisational Change Provision:** This provision was established to meet the costs arising from service efficiencies (identified as part of the budget setting process and service reviews).

**Municipal Mutual Insurance (MMI) Provision:** MMI suffered substantial losses between 1990 and 1992 and these losses reduced MMI's net assets to a level below the minimum regulatory solvency requirement. In September 1992 MMI went in to "run off", and ceased to renew or take on new general insurance work. If a solvent "run off" cannot be achieved the Council may have to repay part of the claims already settled.

**NDR Appeals Provision:** Business Rate Payers are entitled to appeal against the rateable value allocated to it by the Valuation Office Agency (VOA). From 1 April 2013 onwards, in the event that the appeal is successful, the Council is responsible for the Business Rate repayment to the business. This provision has been made based on the expected outcome of the appeals outstanding with the VOA as at 31 March 2019.

**Other Provisions:** All other provisions are individually insignificant.

## Notes to the Core Financial Statements

### 23. Hertfordshire CCTV Partnership Ltd and Hertfordshire Building Control Ltd.

The Council has one jointly controlled operation for the provision and management of CCTV in the Hertfordshire and Bedfordshire area. This arrangement is with Stevenage Borough Council (SBC), North Hertfordshire District Council, East Hertfordshire District Council and Hertsmeare Borough Council. Each member of the arrangement accounts for their share of the asset, liabilities and cash flows of the CCTV in their own accounts.

On the 1 April 2015 a new company, **Hertfordshire CCTV Partnership Ltd**, was incorporated to conduct the commercial trading affairs of the CCTV Partnership. For the year ended 31 March 2020 the company produced a loss before tax of £9,500. SBC's share of the loss is £3,500. Due to the de minimis size of the new company, group accounts have not been completed.

The Council partnered with six local authorities across Hertfordshire to create a new fully integrated building control service and in August 2017, **Hertfordshire Building Control Ltd**, started trading. In 2019/20 Decorum Borough Council joined the integrated service. The council holds 12.5% of the share capital and is represented on the board. In August 2016 the council made a loan to the company of £107,000 which is held in Long Term Debtors on the balance sheet. Final result for the company had yet to be published but the profit/loss is not expected to be material.

Due to the Council's small share holding the Council has not included any further disclosure notes regarding this company.

## Notes to the Core Financial Statements

### 24. Members Allowances

Total expenditure on Members' allowances (including expenses), as made under the Local Authorities (Members' Allowances) Regulations 2003, was £463,578 in 2019/20. (£460,924 in 2018/19). Payments made outside the scheme for Mayoral Allowances totalled £17,683 in 2019/20 (£18,760 in 2018/19).

### 25. Officers Remuneration

The remuneration paid to the Council's senior employees is as follows:-

	Salary, Fees and Allowances	Expenses Allowance	Other Emoluments*	Total Remuneration (excluding pension contributions)	Pension Conts.	Total Remuneration Incl Pension Contributions
	£	£	£	£	£	£
<b>Remuneration 2019/20</b>						
Chief Executive to 7 April 2019	2,368	6	11,676	14,050	663	14,713

\* "Other emoluments" includes election duty payment and accrued annual leave In 2017/18 as part of the Future Town Future Council agenda legal services were procured through an ongoing shared service with Hertfordshire County Council including Borough Solicitor services

## Notes to the Core Financial Statements

### 25. Officers Remuneration contd.

The number of Council employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) is detailed below:

Officer remuneration includes redundancy and severance payments made to officers on termination of employment during the year.

2018/19 Number of employees	Remuneration Band	2019/20 Number of employees
9	£50,000 - £54,999	15
4	£55,000 - £59,999	6
1	£60,000 - £64,999	4
0	£65,000 - £69,999	2
0	£70,000 - £74,999	1
6	£75,000 - £79,999	3
4	£80,000 - £84,999	2
0	£85,000 - £89,999	1
1	£90,000 - £94,999	0
0	£95,000 - £99,999	0
1	£100,000 - £104,999	1
0	£105,000 - £109,999	0
0	£110,000 - £114,999	0
0	£115,000 - £119,999	0
1	£120,000 - £124,999	1
<b>27</b>	<b>Total</b>	<b>36</b>

The council directly employs circa 630 employees. With effect from 1<sup>st</sup> January 2014 the Council commenced paying the real living wage (promoted by Living Wage Foundation) to all employees (excluding apprentices who are paid above the national apprentice rate). As at the 1 April 2019 the Chief Executive was paid 6.74 times the lowest paid member of staff and 3.91 times the mean average (£31,171).

Further information can be found in the annual pay policy statement published on the website:

<https://democracy.stevenage.gov.uk/documents/s18261/Item%2015%20-%20Pay%20Policy%20Statement%202019-20.pdf>

This document includes the remuneration of its chief officers and terms and conditions for staff including the approach to the payment of Chief Officers on the ceasing to hold office.

## Notes to the Core Financial Statements

### 25. Officers Remuneration contd.

The number of exit packages with total costs per band and total costs of the compulsory and other redundancies are set out in the table below.

#### 2019/20

Exit package cost band (including special payments)	Number of compulsory redundancies	Number of other departures agreed	Total number of exit packages by cost band	Total Cost of exit packages in each band
£0 - £39,999	3	0	3	£78,136
£40,000 - £49,999	0	0	0	£0
£50,000 - £109,999	2	1	3	£207,552
<b>Total</b>	<b>5</b>	<b>1</b>	<b>6</b>	<b>£285,688</b>

Exit package cost band (including special payments)	Number of compulsory redundancies	Number of other departures agreed	Total number of exit packages by cost band	Total Cost of exit packages in each band
£0 - £9,999	2	0	2	£11,195
£20,000 - £39,999	3	0	3	£110,503
£50,000 - £79,999	3	0	3	£205,585
<b>Total</b>	<b>8</b>	<b>0</b>	<b>8</b>	<b>£327,283</b>

## Notes to the Core Financial Statements

### 26. Pension

#### **Pensions - Local Government Pension Scheme**

*The Local Government Pension Scheme is accounted for as a defined benefit scheme meaning the Council and its employees make contributions into the Pension Fund at a level calculated to balance the liabilities with the investment asset.*

*The liabilities of the Hertfordshire Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis by projecting forward the results of the 2016 Valuation i.e. by carrying an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and estimations of projected earnings for current employees.*

*Liabilities are discounted to their value at current prices, using a discount rate.*

*The assets of the Hertfordshire Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:*

*Equities – bid-market value*

*Property-market value*

*Bonds and Cash at fair value*

*The change to the net pension liability is analysed into the following components:*

*Service costs comprising:*

- Current service cost – the increase in liabilities, as result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the revenue accounts of services for whom the employees worked.*
- Past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement (CI&E) as part of Non Distributed Costs.*
- Net Interest on the net defined benefit liability (asset), i.e. net interest expense for the Council - the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the CI&ES this is calculated by applying the discount rate used to measure defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period – taking into account any changes in the defined benefit liability during the period as a result of contributions and benefit payments .*

*Remeasurements comprising:*

- The return on plan assets- excluding amounts included in the net interest on the net defined benefit liability – charged to the Pension Reserve as Other Comprehensive Income and Expenditure*

## Notes to the Core Financial Statements

### 26. Pension contd.

#### *Pensions-Local Government Pension Scheme contd.*

- *Actuarial gains and losses – changes in the net pension liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pension Reserve and Other Comprehensive Income and Expenditure.*

*Contributions paid to the Hertfordshire Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities.*

*In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pension Reserves to remove the notional debits and credits for retirement benefits and replaces them with debits for cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the Pension Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits earned by employees.*

#### *Discretionary benefits:*

*The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirement. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.*

### **Participation in Pension Schemes**

The Council participates in the Local Government Pension Scheme administered by Hertfordshire County Council. As part of the terms and conditions of employment of its employees, the Council offers retirement benefits. Although these benefits will not be payable until the employees retire, the Council has a commitment to make payments which need to be disclosed at the time these benefits are earned.

### **Transactions Relating to Post-employment Benefits**

The cost of retirement benefits is recognised in the reported cost of services when they are earned by the employees, rather than when the benefits are eventually paid as pensions.

## Notes to the Core Financial Statements

### 26. Pension contd.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

2018/19 £'000		2019/20 £'000
	<b>Cost of service</b>	
6,303	Current service costs	7,149
551	Past service costs	65
	<b>Financing and Investment Income &amp; Expenditure</b>	
5,416	Interest costs	5,475
(4,085)	Interest income on plan assets	(4,032)

### Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Hymans Robertson LLP, an independent firm of actuaries, has assessed Stevenage Borough Council's fund liabilities. The estimates for the Council are based on the latest formal valuation of the scheme as at 31 March 2020.

## Notes to the Core Financial Statements

### 26. Pension contd.

#### Principal Assumptions

The principal assumptions used by the Actuary have been:-

2018/19		2019/20
<b>Mortality Assumptions:</b>		
Longevity at 65 for current pensioners:		
22.5	Men	21.9
24.9	Women	24.1
Longevity at 65 for future pensioners:		
24.1	Men	22.8
26.7	Women	25.5
<b>Other Assumptions:</b>		
2.5%	Rate of pension inflation	1.9%
2.6%	Rate of increase in salaries	2.3%
2.4%	Rate for discounting scheme liabilities	2.3%
50%	Take up of option to convert annual pension into retirement lump sum. (Pre-April 2008 service)	50%
75%	Take up of option to convert annual pension into retirement lump sum. (Post April 2008 service)	75%

#### Defined Benefit Obligation and maturity profile

	Liability split £'000's as at 31 March 2020 (%)
Active members	69,119 (34%)
Deferred members	47,067 (23%)
Pensioner members	85,893 (43%)
<b>Total</b>	<b>202,079 (100%)</b>

#### Sensitivity analysis of Actuarial assumptions

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analysis that follows has been determined based on reasonably possible changes in the assumptions occurring at the end of the reporting period in calculating the impact for each change in assumption it is assumed that the other assumptions remain unchanged. In practice it is likely that changes in assumptions would be interrelated.

## Notes to the Core Financial Statements

### 26. Pension contd.

Change in assumptions at year ended 31 March 2020	Approximate % increase to Employer Liability	Approximate monetary amount increase (£'000)
0.5% decrease in Real Discount Rate	9	18,586
0.5% increase in salary increase rate	1	1,623
0.5% increase in pension increase rate (CPI)	8	16,824

The total contributions for current service cost expected to be made to the Pension Scheme in the year to 31 March 2021 is estimated at £4,613,000.

Further information can be found in Hertfordshire County Council Pension Fund's Annual Report that is available upon request from: Hertfordshire County Council, Corporate Services, County Hall, Hertford SG13 8DQ (email contact : [pensions.team@hertscc.gov.uk](mailto:pensions.team@hertscc.gov.uk))

### 27. Related Parties

The Council is required to disclose material transactions with related parties. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

**Central Government:** Central Government has effective control over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions the Council has with other parties (e.g. Council tax bills, housing benefits). Grants received from government departments are set out in Note 11 Taxation and Non Specific and Specific Grant Income.

**Other Public Bodies:** Payments between the Council and Hertfordshire County Council (HCC) amounted to £1,061,520 (2018/19, £856,191). Further payments between the Council and Hertfordshire County Council are disclosed in the Collection Fund accounts, Note 26 Pension and Note 11 Taxation and Non Specific and Specific Grant Income.

The Council provides a verge maintenance service for Hertfordshire County Council under an agency agreement for which the Council was reimbursed £487,234 in 2019/20 (£475,815 in 2018/19).

A legal shared service is provide to Stevenage BC by HCC for which the council paid £479,900 (2018/19 £407,965).

## Notes to the Core Financial Statements

### 27. Related Parties contd

**Members and Senior Officers:** Members of the Council have direct control over the Council's financial and operating policies. The total of Members' allowances paid in 2019/20 is shown in Note 24 Members Allowances.

A contract payment of £960,993 was paid to Stevenage Leisure Limited (SLL) (2018/19 £856,573) and £37,483 was paid to Hertfordshire Building Control Limited (£44,657 in 2018/19). Also £1,516,786 was paid to other organisations (2018/19 £1,301,690), either as grants or services received. With reference to all of these organisations, of the 39 Members, 38 Members declared interests through either the Register of Interests or completed related party transactions' forms. As at 31 March 2020 SBC had paid SLL nil amounts (March 2019 £156,510) for management costs relating to 2020/21.

The relevant Members did not take part in any discussions or decision relating to the grants. The grants were made with proper consideration of the declarations which all Members completed in accordance with the statutory Code of Conduct for Members (Local Government Act 2000). During 2019/20 expressions of interest, both potential financial and other interests, are declared and recorded in the minutes of the meeting including involvement with voluntary organisations, public authorities and as the local authority representative on various bodies. This is available for public inspection at the Council offices. There are no other material related party transactions other than those shown elsewhere in the accounts.

During 2019/20, the Chief Executive and Strategic Leadership Team declared no pecuniary interests in accordance with section 117 of the Local Government Act 1972. The Assistant Director of Planning and Regulatory did not take part in any discussion, decision or administration relating to the Stevenage Leisure Limited and Hertfordshire Building Control Limited contract payments.

**Other companies:** Hertfordshire Building Control Limited and Hertfordshire CCTV Limited, please see note 23 Joint Arrangements. Disclosures regarding Queensway Properties (Stevenage) LLP and Marshgate Plc has been included in the Group Accounts section of this document.

## Notes to the Core Financial Statements

### 28. Contingent Liabilities and Assets

**Contingent liability** arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the Council's control. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either the obligation cannot be measured reliably or where it is not probable that an outflow of resources will be required. Contingent liabilities will not be recognised in the balance sheet but will be disclosed separately as a note to the accounts.

A **contingent asset** arises from a past event that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the Council's control.

The Council does not recognise any contingent assets due to the uncertainty of economic gain of a contingent asset.

At the Balance Sheet date five contingent liabilities were identified, that related to:-

- There is a possibility that a new claim for mandatory relief from business rates on behalf of NHS Trust will be received. The second reading of the Hospital (Parking and Business Rates) Bill 2019-21 is scheduled for 10 September 2020. The application could potentially be backdated, potentially up to 6 years (as a statute of limitation). Due to the uncertainty to whether a claim for mandatory relief is made and to whether it is back dated it is not possible to quantify the financial impact to the Council.
- Business Rate payers are entitled to appeal against the rateable value allocated to it by the Valuation Office Agency. The Council has made a provision for appeals lodged including a percentage for those that may be withdrawn.
- The Council has signed a development agreement with Mace, its redevelopment partner for SG1. Should the council not be able to fulfil its development obligations penalty payments would be due to Mace.
- Stevenage Borough Council is one of a number of Local Authority and National Parks Authority who have asked the Local Government Association (LGA), to co-ordinate legal representation and provide ongoing support in respect of collective legal action against MasterCard/Visa (Card Schemes) for unlawful interchange fee.
- There continues to be uncertainty as to the speed of recovery following the Covid-19 Pandemic and its impacts on a number of significant income streams to the Council including rent from tenants and carpark income. Central Government total funding to reimburse local authorities for additional costs incurred during the pandemic has yet to be confirmed and evaluated.

## Notes to the Core Financial Statements

### 29. External Audit Costs

The Council has incurred fees in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections. The estimated fees payable for audit work in respect of the 2019/20 financial year are shown in the table below. The appointed auditor for 2019/20 is Ernst & Young LLP.

2018/19 £'000	Fees Payable	2019/20 £'000
49	Fees payable to the <b>External Auditor</b> with regard to <b>external audit services</b> carried out by the appointed auditor for the year.	49
9	Fees payable to <b>External Auditor</b> for the certification of <b>grant claims and returns</b> for the year.	25
0	Fees refunded by the <b>Audit Commission</b> with regard to external audit services carried out by the appointed auditor	(6)

<b>58</b>		<b>70</b>

## Notes to the Core Financial Statements

### 30. Cash Flow Statement – Operating Activities

The cash flow for operating activities include the following items

2018/19 £'000		2019/20 £'000
(745)	Interest received	(1,427)
7,326	Interest paid	7,539
<b>6,581</b>		<b>6,112</b>

### 31. Adjustments to net surplus or deficit on the provision of services for non cash movements

2018/19 £'000	Non Cash Items	2019/20 £'000
(19,930)	Removal of Depreciation and Impairment from Comprehensive Income & Expenditure Statement	(15,969)
(3,768)	Removal of IAS Pension entries in the Comprehensive Income & Expenditure Statement	(4,060)
(4,112)	Removal of carrying amount of assets disposed	(5,285)
(56)	Other non cash item movements	1,353
	Items on an accrual basis	
3	Add/(less) increase/(decrease) in stock	(13)
2,600	Add/(less) increase/(decrease) in debtors	1,406
(14,288)	Add/(less) increase/(decrease) in creditors & receipts in advance	(1,644)
<b>(39,551)</b>		<b>(24,211)</b>

## Housing Revenue Account (HRA) Income & Expenditure Statement

The HRA Income and Expenditure Statement shows the economic cost in year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. The Council charges rents to cover expenditure in accordance with regulations; this may be different from accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement on the HRA Statement.

2018/19 £000	Note	2019/20 £000
	<b>Expenditure</b>	
6,823	Repairs & Maintenance	7,242

## Movement on the Housing Revenue Account (HRA) Income & Expenditure Statement

This statement takes the outturn on the HRA Income and Expenditure Statement and reconciles it to the surplus for the year on the HRA Balance, calculated in accordance with the requirements of the Local Government and Housing Act 1989.

2018/19 £000		Note	2019/20 £000	2019/20 £000
(24,115)	Balance on the HRA at the end of the previous year			(21,302)
(7,230)	Deficit for the year on the HRA Income & Expenditure Statement		(6,374)	
10,043	Adjustment between accounting basis and funding basis under statute	7	2,146	
0	Transfer to Interest equalisation reserve	8	5,713	
2,813	(Increase)/Decrease in year on the HRA			1,485
(21,302)	Balance on the HRA at the end of the year			(19,817)

## Notes to the Housing Revenue Account (HRA)

### HRA 1. Gross Rent Income

Dwelling rents as shown on the HRA Income and Expenditure Statement is the total rent income due, excluding service charges and after an allowance is made for voids etc. During the year 0.8% of let-able properties were vacant (in 2018/19 figure was 0.75%). Average rents - excluding service charges - were £94.79 a week in 2019/20 (£95.72 in 2018/19).

### HRA 2. Rent and Supported Housing Payment Arrears

During the year 2019/20 rent arrears as a proportion of gross rent income were 3.07% (2.49% in 2018/19).

2018/19 £'000		2019/20 £'000
1,083	Arrears at 31 March	1,349
190	Amounts written off during the year	106

The bad debts provision stood at £786,353 at 31 March 2020 (£586,205 at 31 March 2019).

## Notes to the Housing Revenue Account (HRA)

### HRA 3. Housing Stock Numbers

The stock movement can be summarised as follows:-

2018/19 No.		2019/20 No.
7,997	Stock as at 1st April	7,965
(32)	Less Right to Buy Sales	(42)
31	New Build acquisitions	64
(31)	Demolitions	0
0	Conversions/other	3
<b>7,965</b>	<b>Stock at 31st March</b>	<b>7,990</b>
5,151	Houses	5,136
2,814	Flats	2,854
<b>7,965</b>	<b>Total</b>	<b>7,990</b>

The stock numbers disclosed above are properties that are in management and available to let.

*New homes at Blackwell Close completed in October 2019*

## Notes to the Housing Revenue Account (HRA)

### HRA 4. Non Current Asset Valuations

#### Housing Stock

The total balance sheet value (£'000,s) of the dwellings within the HRA can be summarised as follows:-

	£'000's
As at 31 March 2019	£ 618,675
<b>As at 31 March 2020</b>	<b>£ 631,791</b>
The Vacant Possession value of the dwellings as at 31 March 2020 was	£ 1,662,513

The valuation of the dwellings in the Balance Sheet is on the basis of fair value, which is the market value on the assumption that the property is sold as part of the continuing enterprise in occupation. The difference between the Balance Sheet valuation and the higher valuation on the basis of Vacant Possession shows the economic cost of providing Council housing at less than open market rents.

Other non current assets held by the HRA are detailed below:

31 March 2019 £'000's		31 March 2020 £'000's
2,846	Assets Under construction	5,025
1,296	Vehicles Plant & Equipment	1,188
<b>4,142</b>	<b>Total</b>	<b>6,213</b>

### HRA 5. Major Repairs Reserve (MRR)

2018/19		2019/20	
£'000	£'000	£'000	£'000
(9,264)	<b>Opening Balance as at 1st April</b>		(10,920)
	<b>Transfers to the MRR -</b>		
(12,520)	Depreciation of HRA Dwellings	(11,352)	
0	Voluntary contribution in year	(497)	
(260)	Depreciation of other HRA Assets	(132)	
(12,780)			(11,981)
	<b>Transfers from MRR -</b>		
11,124	Financing of HRA Capital Expenditure		18,030
(10,920)	<b>Closing Balance as at 31 March</b>		(4,871)

## Notes to the Housing Revenue Account (HRA)

### HRA 6. Capital Expenditure, Financing & Receipts

2018/19 £'000		2019/20 £'000
	Capital Expenditure	
13,067	Major Repairs & Improvements	25,262
3,604	New Council Housing	3,665
768	Disabled Adaptations	650
1,644	Equipment	346
3,283	Assets under construction	463
22,366		30,386
	The Capital Expenditure was financed as follows:	
697	Capital Receipts	1,325
1,964	Retained 1 for1 receipts	3,270
11,124	Major Repairs Reserve	18,030
6,770	Contributions	705
1,811	New Borrowing	7,056
22,366		30,386

Total Capital Receipts in 2019/20 from the sale of property within the HRA can be summarised as follows :-

2018/19 £'000		2019/20 £'000
(4,910)	Right to Buy Sales	(6,932)
(1)	Right to Buy Mortgage Repayments	(2)

## Notes to the Collection Fund Statement 2019/20

### CF 1. Council Tax

Council tax income derives from charges raised according to the value of residential properties, which have been classified into 8 valuation bands estimating 1 April 1991 values for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by Hertfordshire County Council, Hertfordshire Police Authority and the Stevenage Borough Council for the forthcoming year and dividing this by the council tax base (the total number of properties in each band adjusted by a proportion to convert the number to a Band D property equivalent and adjusted for discounts. In 2013/14 the local council tax support scheme was introduced and the band D equivalents was reduced to take into account the loss of income; (27,329.90 for 2019/20, 27,058.50 for 2018/19). The basic amount of council tax for a band D property £1,758.51 for 2019/20 (£1,688.92 for 2018/19) is multiplied by the proportion specified for the particular band to give an individual amount due.

Band	A (Disbld.)	A	B	C	D	E	F	G	H	TOTAL
Properties	0	1,640.84	6,623.59	21,477.46	3,305.64	3,172.26	918.90	429.50	15	37,583.19

<b>Council Tax Base</b>	Band D equivalent multiplied by collection rate of 98.25%									<b>27,329.90</b>

## Notes to the Collection Fund Statement 2019/20

### CF 1. Council Tax (cont)

The income chargeable of £60,711,534 in 2019/20 is from the following sources:

2018/19		2019/20
£46,407,418	Billed to Council Tax Payers	£48,993,784
£5,935,068	Local Council Tax Scheme	£5,779,821
£5,573,702	Exemptions, Discounts, etc.	£5,937,929
£57,916,188		£60,711,534

### CF 2. Non-Domestic Rates (NDR)

The Government specified a multiplier of 50.4p in 2019/20 (49.3p in 2018/19) by which local businesses pay rates calculated by multiplying their rateable value by this amount (subject to the effects of transitional arrangements). The equivalent amount for small businesses was 49.1p in 2019/20 (48.0p in 2018/19). The rateable value for the Council's area is £110,353,092 at 31 March 2019 (£110,366,867 at 31 March 2018). The rateable value changes throughout the year due to increases and decreases in assessments.

In 2013/14 the business rate retention scheme was introduced by the Local Government Finance Act 2012. This scheme enables local authorities to retain a proportion of the business rates generated in their areas. Income generated by business rates is shared between the billing authority (Stevenage Borough Council), Central Government, and Hertfordshire County Council as shown in the Collection Fund Statement below. Liabilities and provisions arising from the NDR collection fund are also shared between the three and recognised in their accounts.

### CF 3. Allocation of Collection Fund (surpluses)/deficits

The Council Tax surplus is allocated in proportion to the respective precepts, whereas the NDR surplus is allocated on fixed apportionment of Central Government 50%, Stevenage BC 40%, and Hertfordshire County Council 10%.

2018/19			2019/20		
Council Tax	Business Rates	Total	Council Tax	Business Rates	Total
(£323,317)	(£88,912)	(£412,229)	Hertfordshire County Council	(£697,831)	(£960,900)

# Group Accounts 2019/20

Blank page

## Group Accounts

### Introduction

In order to provide a full picture of the economic and financial activities of the Council and its exposure to risk the accounting statements of a material subsidiary are consolidated with the Council's accounts. They include the core accounting statements (movement in reserves statement., comprehensive income and expenditure statement, balance sheet and cash flow statement) presented in a similar manner to the Council's accounts. Further explanatory notes are given and these should be read in conjunction with the Council's (single entity) accounts.

Group accounts has been prepared under the requirement of the Code of Practice on Local Authority Accounting, consolidating and material subsidiary, associate or joint venture entities which the Council exercises control or influence ( See also Note 3 –Critical judgements in applying Accounting Policies and Note 23 – Hertfordshire CCTV Limited and Hertfordshire Building Control Ltd).

On 7 November 2018 Stevenage BC formed a limited Liability Partnership called Queensway Properties (Stevenage) LLP (further referred to as Queensway LLP). The Council holds 99.9% of the partnership with the remaining 0.1% held by Marshgate Ltd, a company wholly owned by Stevenage Borough Council (incorporated on 30 October 2018). The purpose for establishing Queensway LLP was to facilitate the regeneration of 85-100 Queensway and 24-26 The Forum, a large element of the new town centre. The Council has entered into a partnership with REEF and Aviva (the funding partner) to deliver a mixed use redevelopment of the site including commercial, residential, and leisure uses. The Council has taken the head lease of the property from Aviva and sublet to Queensway LLP over a 37 year period.

### Accounting Policies

Queensway LLP has its first year end as 31 March 2020. As such accounts have been prepared for the first 15 months of trading and these accounts have not been subject to their auditors (yet to be appointed). In compiling the Group Accounts the first accounting period has been split to match the Council's accounting period, ie the first three months trading in 2018/19 and 12 months to 31 March 2020. The Council has reviewed the accounting policies applied to Queensway LLP and has concluded that there is no material adjustments required to align accounting policies of both entities.

As a subsidiary, the accounts have been consolidated with those of the Council on a line by line basis and any balances and/or transactions between the parties have been eliminated in full in both the Comprehensive Income and Expenditure account and Balance sheet.

## Group Accounts - Notes to the Group Accounts

The following notes are given below on areas that have materially changed in consolidating the accounts.

### G1. Accounting Policies

The Accounting policies of the group are the same as those applied to the Council's single entity accounts.

### G2. Leases

Queensway Properties LLP has entered into a 37 year lease for properties 85 Queensway and 89-103 Queensway and 24-26 The Forum, Stevenage, Hertfordshire. This long term liability and long term borrowing has been recognised on the balance sheet with corresponding land and building and cash balances. Paid and future expected lease payments (including interest) are detailed in the following table;

	Land £'000	Borrowing £'000	Total £'000
Paid	£327	£648	£975
Due less than one year	£278	£526	£804
Due in 1-5 years	£1,583	£2,693	£4,276
Due in 6-35 years	£15,232	£15,120	£30,352
<b>Total</b>	<b>£17,093</b>	<b>£18,339</b>	<b>£35,432</b>

### G3. Group short term Debtors

31 March 2019 £'000		31 March 2020 £'000
2,209	Central Government Bodies	1,679
177	Other Local Authorities	152
509	Housing Rents & Leaseholders	1,198
699	Collection Fund	379
6,422	Other Debtors	11,098
<b>10,016</b>	<b>Total</b>	<b>14,506</b>

## Group Accounts - Notes to the Group Accounts

### G4. Group short term Creditors

31 March 2019 £'000		31 March 2020 £'000	£'000
	<b>Creditors:</b>		
6,451	Central Government Bodies	5,169	
8	Other Local Authorities	3,605	
298	Collection Fund	0	
436	Accumulated leave	535	
8,887	Other Entities & Individuals	10,336	
<b>16,080</b>	<b>Total Creditors</b>		<b>19,645</b>
	<b>Receipts in Advance:</b>		
0	Other Local Authorities		
1,094	Housing	1,205	
562	Collection Fund	270	
569	Other Entities & Individuals	1,503	
<b>2,225</b>	<b>Total Receipts in Advance</b>		<b>2,978</b>
<b>18,305</b>	<b>Total</b>		<b>22,623</b>

### G5. Queensway Properties LLP Summary Profit and Loss Account for 1<sup>st</sup> April 2019 – 31 March 2020

2018/19 7-11-18 to 31-3-19 Net Expenditure £'000		2019/20 Net Expenditure £'000
(208)	Turnover	(341)
286	Cost of Sales	107
<b>78</b>	<b>Gross (Profit) / Loss</b>	<b>(234)</b>

### G7. Queensway Debtors and Creditors

In the group accounts the transactions between the Council and Queensway LLP are eliminated.

31 March 2019	Queensway Debtors due in less than 1 year	31 March 2020
£'000		£'000
0	Stevenage Borough Council	199
75	Other Debtors	94
<b>75</b>	<b>Total</b>	<b>293</b>

31 March 2019	Queensway Creditors due in less than 1 year	31 March 2020
£'000		£'000
(387)	Stevenage Borough Council	(77)
(15)	Other Creditors	(15)
<b>(402)</b>	<b>Total</b>	<b>(92)</b>

## Glossary of Terms

### Actuarial Gains and Losses

Changes in the net pensions liability that arise because

- Events have not coincided with assumptions made at the last actuarial valuation, or
- The actuarial assumptions have changed

### Agency Services

Services which are provided by the Council for another Local Authority or public body and the principal (the authority responsible for the service) reimburses the agent (the authority doing the work) for the cost of the work carried out.

### Amortisation

The measure of the cost or revalued amount of benefits of the intangible non current asset that have been consumed during the period. Consumption includes the wearing out, using up or other reduction in the useful life of a non current asset whether arising from use, effluxion of time or obsolescence through either changes in technology or demand for the goods and services produced by the asset.

### Appointed Auditors

Independent external auditors that provide an audit opinion as to whether the Statement of Accounts shown are true and fair.

### Balances

In general, the surplus or deficit on any account at the end of the financial year. Often used to refer to an available surplus, which has accumulated over a number of past years.

### Budget

A statement defining in financial terms, the Council's policies over a specified period of time.

**Original Budget** the estimate for a financial year approved by the Council before the start of the financial year.

**Working Budget** – an updated revision of the original budget for the financial year approved at Executive Meetings and/or Council Meetings throughout the year

### Capital Expenditure

Expenditure on the acquisition of assets or works which have a long term value to the Council, either directly by the Council or indirectly in the form of grants to other persons or bodies. Expenditure which does not fall within this definition must be charged to a revenue account.

### Capital Receipts

The proceeds from the disposal of land or other assets which can be used to finance new capital expenditure (but not revenue spending). The Local Government Act 2003 introduced new provisions whereby a proportion of local authority housing capital receipts must be paid into the Government's National Pool (75% for Council houses and 50% for HRA land). This was amended for HRA receipts with changed with regard to the provision for new social housing ("one for one" receipts) and debt provision in 2012 following self financing.

## Glossary of Terms

### Capital Financing Costs

A charge to services to reflect the cost of assets used in the provision of the service.

### Code of Practice

Code of Practice on Local Authority Accounting sets out the arrangements required to be followed in the Statement of Accounts. It constitutes 'proper accounting practice' and is recognised as such by statute.

### CIPFA

Chartered Institute of Public Finance and Accountancy. The principal accounting body dealing with local government finance.

### Collection Fund

Every billing authority (District/Borough Council) is required to maintain a Collection Fund into which is paid the Council Tax and National Non-Domestic Rates collected from the tax/rate payers. Payments are made from the Fund to the precepting authorities (County Council, Police Authority and District/Borough Council) whilst National Non-Domestic Rates income is passed to the Government.

### Community Assets

Assets that the local authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. An example of a community asset would be parks.

### Contingent Asset

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain events not wholly within the Council's control.

### Contingent Liability

A contingent liability is a possible liability arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain events not wholly within the local authority's control.

### Council Tax

The property based tax by which Local Authorities and Police Authorities, raise revenue from the local community. All domestic properties have been valued and placed within eight bandings to which is applied the local rate assessed by the relevant authorities. A discount on charges is applied where dwellings are occupied by only one adult. Rebates are available to those Council Tax payers meeting the Government's criteria.

### Debt Charges

The repayment of money borrowed from a third party. These payments usually include repayment of part of the loan as well as interest. Also known as capital financing costs or loan charges.

## Glossary of Terms

### Defined Benefit Scheme

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

### Depreciation

The measure of the cost or revalued amount of benefits of the non current asset that have been consumed during the period. Consumption includes the wearing out, using up or other reduction in the useful life of a non current asset whether arising from use, effluxion of time or obsolescence through either changes in technology or demand for the goods and services produced by the asset.

### Earmarked Reserve

These are funds that are set aside for a specific purpose, or a particular service, or type of service. Stevenage Borough Council refer to these as “allocated reserves” in budget reports.

### Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the authority and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

### Extraordinary Items

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the authority and which are not expected to recur. They do not include exceptional items nor do they include prior period items merely because they relate to a prior period.

### Fees and Charges

Income arising from the provision of services e.g. parking facilities, planning applications.

### General Fund

The main revenue fund of the Council. Day to day spending on services is met from this fund. Spending on the provision of Council housing, however, must be charged to the separate Housing Revenue Account.

### Going Concern

The concept that the authority will remain in operational existence for the foreseeable future, in particular that the Comprehensive Income and Expenditure Statement and Balance Sheet assume no intention to curtail significantly the scale of operations.

### Government Grants

Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash or transfers of assets to an authority in return for past or future compliance with certain conditions relating to the activities of the authority.

## Glossary of Terms

### Heritage Assets

Assets that are held and maintained principally for their contribution to knowledge and culture and are intended to be preserved in trust for future generations because of their cultural, environmental or historical associations.

### Housing Revenue Account (HRA)

A separate account dealing with expenditure and income arising from the letting of Council dwellings. Expenditure includes supervision and management costs, repairs and capital financing charges. Income includes rent, Government subsidies and investment interest. It is a “ring fenced” (i.e. the transfer of amounts between the HRA and the General Fund is restricted by legislation).

### Impairment

A reduction in the value of a non-current asset below its carrying amount on the Balance Sheet.

### Infrastructure Assets

Expenditure on assets whose value is recoverable, e.g. roads footpaths, and bridges.

### Interest on Balances and from Investments

The interest earned by investing the day to day surplus on the authority's cash flow and balances in hand.

### Non Domestic Rates (NDR)

A levy on businesses based on a notional rate in the pound (multiplier) set by Central Government and multiplied by the ‘rateable value’ (RV) of the premises they occupy. The amount depends on the RV assigned to the property by the District Valuer and the multiplier, which is uniform across the whole country.

The government compensates the council through a S31 grant for additional NDR reliefs announced in recent budgets

### Net Book Value

The amount at which non-current assets are included in the balance sheet. This would be either the asset's historic cost or current value less the cumulative amount provided for depreciation. It does not represent the sale value.

### Overheads

Administration costs e.g. finance, personnel, information technology together with other central costs which cannot be allocated direct to services such as general expenses.

### Precepts

Sums levied by District/Borough, County and Parish Councils and Police Authorities on the Collection Funds of billing authorities (Districts and Boroughs) and forming part of the overall demand for Council Tax.

## Glossary of Terms

**Public Works Loan Board (PWLB)**

A government agency established to provide long-term loans to local authorities to finance part of their capital expenditure.

**Rateable Value**

A value on all non-domestic properties subject to Non-Domestic Rates (NDR). The value is based on a notional rent that the property could be expected to yield and revaluations take place every five years.

**Related Parties**

For a relationship to be treated as a related party relationship there has to be some element of control or influence by one party over another, or by a third party over the two parties.

**Revenue Contributions to Capital Outlay**

Contributions from revenue to finance capital expenditure.

**Revenue Expenditure**

The day to day running costs incurred by the Council in providing its services.

**Retrospective Restatement**

Retrospective restatement of the financial statements will occur where there has been a change in accounting policy (unless there are specific transitional arrangements) or where material Prior Period errors have been identified. Correcting the recognition, measurement and disclosure amounts of elements of the financial statements as if a prior period error had never accorded. This is achieved by restating the comparative amounts for prior period(s) presenter in which the error occurred or if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and net worth for the earliest prior period presented.

**Surplus**

An excess of income over expenditure (or assets over liabilities).
