Outside the Exhibit

Help create new museum exhibitions

Outside the Exhibit is a new creative project inviting local people to share thoughts, experiences and stories of green spaces.

There will be opportunities to take part in museums and outdoor spaces with activities in dance, visual arts, photography, film and walks.

What will it lead to?

In 2027, we will create public artwork and exhibitions in the museums inspired by the stories heard.

Where?

Taking place across the county in partnership with: North Hertfordshire Museum (Hitchin) • Royston Museum • Stevenage Museum • Museum of Watford

Who's it for?

Outside the Exhibit is for local people of all ages and community groups who want their voices, experiences and stories to be reflected in future museum exhibitions.

You might be:

- Interested in creativity, culture or heritage
- Passionate about your local green spaces
- Keen to connect with others in your community
- Curious to try out some new arts skills

No experience is needed.
