

DO YOU HAVE ENOUGH FOOD FOR AN ACTIVE AND HEALTHY LIFESTYLE?

**Complete our
survey today!**

Citizens Advice Stevenage is conducting research to better understand the level of food security in Stevenage — and we need your help!

We invite you to take part in a short **anonymous** survey that is open to **ALL** Stevenage Residents.

We want to better understand the current level of food security in our community, including who may be struggling to afford or access food, whether existing support services are meeting people's needs, and where additional help or resources may be required.
