

Matter 16, Appendix 1

Extract from T19: Odysseus Markides's Technical Note: North Herts:
Local Plan Transport Technical Review dated 23/9/16, pages 15 & 16

COMET Hotspots

3.28 HCC also provided COMET outputs showing the congestion hotspots in 2015 that have been highlighted from the Strategic Traffic model. These are current congestion hotspots that common sense dictates could be exacerbated by Local Plan growth.

3.29 The hotspots identified on the COMET model but not within the list of 20 problem junctions highlighted in the Aecom report "*Preferred Local Plan Model Testing Problem Locations*" dated 05/07/16 are as follows:

Royston

- A10 Sun Hill/B1039
- A10/A505
- A505/A1198/Old N Road

Baldock

- Junction 10- A507/A1M
- A505/B656

Letchworth

- A505/B656/Pixmore Way
