Five Year Housing Land Supply Update

Addendum

January 2021

Table of Contents

- 1.0 Introduction3
- 2.0 Housing Delivery Test Result4
- 3.0 Updating the Five Year Housing Supply.....5
- Appendix 1 – Permission Granted since 1 April 2020.....8

1.0 Introduction

- 1.1 This Five Year Housing Land Supply Update Addendum (January 2021) has been produced to provide an interim position with regards to Stevenage Borough Council's Five Year Housing Supply in light of the [Housing Delivery Test results](#) published by the Ministry of Housing, Communities and Local Government on 19 January 2021.
- 1.2 The Council previously published a [Five Year Housing Land Supply Position Statement](#) in September 2020 but the results of the Housing Delivery Tests dictate that changes are required in the way that the Council calculated its housing supply figure of 5.64yrs.
- 1.3 As will be explained in this Addendum, Stevenage Borough Council can now demonstrate a Housing Supply of **5.002 years** for the period 1 April 2020 to 31 March 2025.
- 1.4 This will be the figure used in decision making until we next incorporate up to date commitment, commencement and completion data. This is expected to be in April 2021.
- 1.5 This Addendum explains how the Council has calculated the figure of 5.002yrs. The Addendum does not supersede historic data or details of future housing trajectories included in the September 2020 Position Statement. It merely updates the figures in the Position Statement with an increased buffer in line with the Housing Delivery Test result and incorporates residential permissions that have been granted since 1 April 2020 to give a more up to date position.

2.0 Housing Delivery Test Result

2.1 Stevenage Borough Council's results for the last three Housing Delivery Tests are as follows:

HDT	No. of homes required	No. of homes delivered	Score	Consequence
2018	1,115	1,119	100%	None
2019	1,120	1,262	113%	None
2020	1,094	702	64%	Presumption in favour of sustainable development

2.2 The consequences of the HDT results are based on the percentage score:

- >95% - no consequence
- <95% - LPA to prepare an action plan to increase housing supply
- <85% - LPA to include a 20% buffer in their 5yr housing supply calculations
- <75% in apply the presumption in favour of sustainable development

2.3 Therefore, as of the 2020 results (published January 2021) the Council must now:

- 1) prepare an Action Plan showing how it will increase housing supply,
- 2) include a 20% buffer in its 5yr housing supply calculations, and
- 3) apply the presumption in favour of sustainable development during decision making.

2.4 This Addendum covers the second of these three consequences.

3.0 Updating the Five Year Housing Supply

3.1 In the September 2020 Position Statement, we stated that we had the following requirement for housing:

Annual Requirement	Annual Shortfall	Annual 5% buffer	Total Annual Requirement	Total 5 Year Requirement
380	118.81	24.94	523.75	2,619

3.2 Due to the Housing Delivery Test score, the 5% buffer must be increased to 20% so we now have the following housing requirement for the period 1 April 2020 to 31 March 2025:

Annual Requirement	Annual Shortfall	Annual 20% buffer	Total Annual Requirement	Total 5 Year Requirement
380	118.81	99.76	598.57	2,992.9

3.3 In the September 2020 Position Statement, we gave a breakdown of deliverable sites in line with the Part A and B of the definition in the NPPF. Since 1 April 2020, the Council has granted permission for a further 172 houses (net) (see Appendix 1). The Council considers it prudent to include these in the interim Five Year Housing Supply set out in this Addendum. However 133 of those units were already included in the Five Year Supply so must not be included for a second time. This means the Council has added 39 units to its total number of sites with detailed planning permission as follows:

	Position Statement (Sept 2020)	Post-HDT Result Addendum (Jan 2021)
Total Number of Dwellings for Sites Under Construction	310	310
Total Number of Dwellings for Sites with Detailed Planning Permission	358	397
Total Number of Dwellings for Sites with Prior Notification	21	21
Total Number of Dwellings for Sites with Outline Permission	526	526
Total Number of Dwellings for other 'Deliverable' Sites	1660	1660
Total Number of Dwellings for Windfall Sites	80	80
Total Identified Supply	2,955	2,994

3.4 The Business and Planning Act 2020 temporarily modified the Town and Country Planning Act 1990 and the Planning (Listed Buildings and Conservation Areas) Act 1990 to enable

certain planning permissions and listed building consents in England which lapsed or were due to lapse during 2020 to be extended. This meant that any permissions which expired or were due to expire between 19 August 2020 and 31 December 2020 were extended to 1 May 2021. As such, we do not have to subtract any houses from our number of sites with detailed planning permission to balance the permissions we have added to the supply.

3.5 As such, this Addendum updates our Five Year Housing Supply calculation as follows:

Five Year Housing Supply Calculation		Position Statement (Sept 2020)	Post-HDT Result Addendum (Jan 2021)
A.	Objectively Assessed Need (dwellings per year)	380	380
B.	Local Plan Period (Years)	20	20
C.	Adopted Housing Target 2011-2031 (A x B)	7600	7600
D.	Completions 1 Apr 2011 – 31 Mar 2020	2113	2113
E.	Target 1 Apr 2011 – 31 Mar 2020	3420	3420
F.	Shortfall against target at 31 Mar 2020 (E – D)	-1,307	-1,307
G.	Target 1 Apr 2020 – 31 Mar 2025	1,900	1,900
H.	Surplus / Shortfall to be delivered in 5yr period (F / 11 x 5)	-594	-594
I.	Buffer to be applied (5% / 20%)	1.05	1.2
J.	Total 5yr requirement ((G – H) x I)	2,619	2993
K.	Dwellings under construction	310	310
L.	Dwellings granted permission or prior approval	379	418
M.	Dwellings granted outline permission or subject to S106	526	526
N.	Other dwellings considered 'deliverable'	1,660	1,660
O.	Dwellings from Windfall sites	80	80
P.	Total deliverable dwellings (supply) 1 Apr 2020 – 31 Mar 2025 (K + L + M + N + O)	2,955	2,994
Q.	Surplus of dwellings (P – J)	336	1
R.	Total Years Housing Supply ((P / J) x 5)	5.64	5.00182

3.6 We have not updated our list of sites under construction or completed sites (with which the historic undersupply is calculated). We cannot do this until Hertfordshire County Council has undertaken their annual housing survey, scheduled for February-March 2021.

3.7 We have not updated our lists of sites with Outline Permission and otherwise considered as deliverable in line with Part B of the definition within the NPPF Glossary. We cannot do

this until 01 April 2021 when the five year period that the Housing Supply relates to is pushed back one year to 1 April 2021-31March 2026. It is worth noting that at that point, our number of deliverable houses is likely to increase due to the housing trajectories we have agreed with developers/agents of individual sites as evidenced by the Statements of Common Ground included in the September 2020 Position Statement.

- 3.8 To conclude, using the Five Year Housing Land Supply Position Statement (September 2020) as a basis, and incorporating the changes explained in this Five Year Housing Land Supply Update Addendum (January 2021), the Council can demonstrate a Housing Land Supply of **5.002 years**.

Appendix 1 – Permission Granted since 1 April 2020

PP Ref	Address	Description	Dev Types	PDL	Gross Area	Granted	Lapses	Started	Completed	Prop Units	Lost	Net Gain	Application Type	Current Status
20/00290/FP	Former DuPont, Wedgwood Way, Stevenage	Change of use from commercial (use classes A1/A2/A3/D1) to 6 no: one-bed units and 3 no: two-bed units with associated facade alterations, cycle parking, 12 car parking spaces and 3 visitor spaces.
