# Solve the mystery of the Six Hills by visiting the stores shown on the map over the page to complete the story.

On a dark, cold night loomed a tall and mysterious \_\_\_\_\_ overlooking the town known as Stevenage.

It's often said; only little kiddies' eyes could see the floating \_\_\_\_\_ that circled the six hills.

Together, their auras drew in the kids, along with their \_\_\_\_\_ treats, bubbling out of a hot boiling \_\_\_\_\_.

Unknown to the kids, upon the third hill laid an invisible \_\_\_\_\_, with only a fishbone path leading you to the unknown.

Up ahead lay a single \_\_\_\_\_, with a \_\_\_\_\_ laid at its side, giving the most scariest yet enchanting look.

All around, adults would see entranced children walking up the path. Suddenly, the kids would jump, cackling, as they squashed \_\_\_\_\_ underneath their feet, spilling out of the pumpkins mouth.

As their journey gets closer, the house could be seen. Do you go inside, or are you tempted by the magical \_\_\_\_\_ that's suddenly appeared beside you?..... The book was too tempting not to open....

On the first page, pictures of six hills shone bright. Kids were happy. Safe enough to turn the page. What a mistake. On the other side of the page staring back at you were \_\_\_\_\_.

The children screamed, dropped the book, running back down the path, away from the house and into the safety of \_\_\_\_\_ loving arms.

As the children are tucked in safe for the night, all is well again.

Bright eyed kids wake, look around, and breathe happily. It was all just a dream.

As their school journey begins, they pass by the six hills. Feeling brave, the kids let go of mummy's hand, which suddenly sends chills through their body. Scared, they hold on again to mummy's hand and immediately feel safe again.

The question on the minds of kids all over Stevenage was always the same each year: "was the mystery of the six hills  true or  false"
